Practical Short Form Content Ideas Ideas From Home:

The Idea and Practice of Reading R. Joseph Ponniah, Sathyaraj Venkatesan, 2018-05-08 This book addresses basic issues in language education and explores how reading with a focus on meaning contributes to the development of all aspects of language including vocabulary spelling grammar and syntax It departs from traditional methods and practices in language learning to investigate the potency of reading in improving language acquisition The traditional practice in language classes to teach language skills explicitly through acquiring forms and structures of language is often less than successful and teachers are gradually incorporating reading materials and practices into the curriculum This book provides important inputs to language teachers and educators on the need to include reading as an idea and as a practice into the curriculum Among other things it explores the benefits of incidental learning of language properties such as vocabulary syntax and grammar and gives adequate exposure to different types of reading strategies to promote reading among learners It also exploits the possible transfer of L1 reading strategies and capabilities to L2 reading for language acquisition In so doing this book hopes to promote autonomous learning among L2 learners and guide readers in alternative strategies to solve comprehension problems Self-Studies of Teacher Education Practice Online Mary F. and Media Research and Practice during the Crises of 2020 Vikki S. Katz, Bradley J. Bond, 2022-10-20. This unique yearbook captures the extraordinary events and effects of 2020 on children and media scholars and practitioners. Contributors reflect on how the compounding crises of 2020 the COVID 19 pandemic international protests for racial justice and the climate crisis have prompted them to re evaluate some aspects of their research teaching or production related to children adolescents and media. Crises can be opportunities for clarity revealing creative ways to address collective challenges. This volume which began as a special issue of Journal of Children and Media reveals such insights. Contributors discuss how the crises of 2020 Prompted them to reconsider theories and concepts central to research on children adolescents and media. Fostered new priorities for how and what they teach. Spurred creative ways to produce high quality accessible educational media for children globally. Affected their media engagement with their own children while they researched children's media use during social distancing. Weighed more heavily on scholars and practitioners of color and how professional communities can best respond to those challenges. These 36 international contributions reveal how children and media scholars and professionals worked through the crises of 2020 putting newfound clarity to creative use in the service of children all over the world. *Practical Farmer*, 1913 *Journal of Rural Education*, 1922 **The Service**
