Tobia Zevi, 2025-06-20 The Covid 19 pandemic forced cities to shut down and citizens to stay home disrupting economic activity and social life The crisis pushed companies to adopt remote work transforming it from a niche practice to a widespread norm altering the balance between work and personal life This shift created inequalities across sectors and influenced the ability of global cities to attract talent in a globalized labor market Now as the pandemic has receded many companies are reversing course This Report explores how remote work has impacted cities and citizens from mobility to urban planning How can remote work reshape global cities What strategies are available to local authorities Is remote work still the future **Annual Report, Special International Exhibitions** United States Information Agency, 1963 **The Work of Empire** Justin F.
