Comparative Urban and Community Research ,1992 **The Homeless** Tamara L. Roleff,1996 An anthology of opposing viewpoints discusses the problems and causes of homelessness **Street People and the Contested Realms of Public Space** Randall Amster,2004 Amster studies the social and spatial implications of homelessness in America

Increasingly commentators have lamented the erosion of public space charting its decline along with the rise of commercialization and privatization A result is the criminalization of homelessness a phenomenon revealed here through participant observations informal conversations and in depth interviews with street people city officials and social service providers Amster explores the interconnections among i the impetus of development and gentrification ii the enactment of anti homeless ordinances and regulations iii the material and ideological erosion of public space iv emerging forces of resistance to these trends and v the continuing viability of anti systemic movements Citizen Hobo Todd DePastino,2024-05-31 In the years following the Civil War a veritable army of homeless men swept across America s wageworkers frontier and forged a beguiling and bedeviling counterculture known as hobohemia Celebrating unfettered masculinity and jealously guarding the American road as the preserve of white manhood hoboes took command of downtown districts and swaggered onto center stage of the new urban culture Less obviously perhaps they also staked their own claims on the American polity claims that would in fact transform the very entitlements of American citizenship In this eye opening work of American history Todd DePastino tells the epic story of hobohemia s rise and fall and crafts a stunning new interpretation of the American century in the process Drawing on sources ranging from diaries letters and police reports to movies and memoirs Citizen Hobo breathes life into the largely forgotten world of the road but it also crucially shows how the hobo army so haunted the American body politic that it prompted the creation of an entirely new social order and political economy DePastino shows how hoboes with their reputation as dangers to civilization sexual savages and professional idlers became a cultural and political force influencing the creation of welfare state measures the promotion of mass consumption and the suburbanization of America Citizen Hobo s sweeping retelling of American nationhood in light of enduring struggles over home does more than chart the change from homelessness to houselessness In its breadth and scope the book offers nothing less than an essential new context for thinking about Americans struggles against inequality and alienation **Social Work, Social Welfare, and American Society** Philip R. Popple,Leslie Leighninger,1996 Two of the best known authors in social work provide a political perspective on social welfare Definitions of liberal conservative and moderate positions help the reader better appreciate the political context of social welfare programs *Urban Anthropology and Studies of Cultural Systems and World Economic Development* ,1996 **International Critical Perspectives on Homelessness** Mary Jo Huth,J Talmadge Wright,1997-05-21 This volume focuses on the global character of homelessness bringing together studies from different countries to provide the critical reflection often absent from public policy or social welfare deliberations **The American University Journal of Gender & the Law** ,1993 The Homeless Jennifer A.

Hurley,2002 Authors debate whether homelessness is a serious problem what housing options would benefit the homeless and how society should deal with the homeless **Lost in Space** Randall Amster,2008 Amster explores the historical and contemporary implications of homelessness as a social and spatial problem drawing upon academic disciplines and policy concerns ranging from urban geography to legal advocacy Homeless people find themselves in a struggle to preserve places that are theoretically open to everyone regardless of status Urban spaces in particular manifest a complex ecology comprised of people culture architecture technology and the natural environment expressed through gentrification redevelopment and privatization In this ecology homeless people are criminalized for performing basic activities such as sitting or sleeping These trends are evident across the U S and internationally linking local issues with wider forces of globalization Social Problems in a Diverse Society Diana Elizabeth Kendall,1998 Emphasizing the centrality of race class and gender in understanding people s life experiences and social problems in the US and other nations this college level text addresses contentious issues with reason and perspective Topics covered in the volume s 18 chapters include wealth and poverty t

Homelessness In America National Coalition for the Homeless (U.S.),1996-10-07 Jonathan Kozol describes Homeless in America as a valuable collection of enlightened writings by those who know the challenges and realities first hand An authoritative work on a compelling subject this comprehensive title offers investigative essays on key policy related issues surrounding homelessness It also answers hundreds of questions about the magnitude and implications of this complex social issue Illus Stigma Gerhard Falk,2001 What is it in human nature that leads us to label some as insiders and stigmatize others as outsiders Sociologist Gerhard Falk examines the social psychology that motivates this process of exclusion focusing on the outcasts in contemporary American society and comparing current experience with examples from the past Referring to the work of Emile Durkheim and Erving Goffman Falk reviews the whole range of stigmatized people from the mentally ill to ordinary people with unpopular occupations like undertakers and trash collectors Amid the wide diversity of stigmatized persons he finds two basic types of outsiders the existential and the achieved The first group comprises those who are stigmatized because of their very existence regardless of their specific actions the mentally handicapped for example The second group describes those whose actions or life conditions have resulted in stigma from high achievers often subject to resentment to criminals Falk also looks at the ways in which writers past and present have dramatized stigmatized characters in literature This fascinating overview of a long standing and widespread social problem will be of interest to all those concerned about creating a more fair minded society **Transforming Or Reforming Capitalism** John Loxley,2007 Growing worldwide interest in community economic development has led to a blossoming of how to manuals as well as analyses of co operatives development corporations gender financing etc Yet in all this discussion very little is said about the basic objective of CED Is it designed to fill holes left by capitalism or is it intended to replace it There is equally little on a theory of CED This book draws on several disciplines particularly economics sociology and political studies to assess the

state of CED theory and to identify implicit issues for building that theory It emphasizes the necessity to draw theoretical insights from each discipline in the process howing the efficacy of interdisciplinary approaches It concludes with a discussion of both future theoretical directions and of what existing theory has to say about achieving a transformative CED pub website
