What It Takes to Become a Chess Master Andrew Soltis, 2012-10-30 So you're a fairly decent chess player You compete in tournaments you play on the Internet But you would love to make that leap to become a chess master What do you need to know how much do you have to practise and how much of the success of the masters is simply a matter of innate talent superior brainpower or just good luck This useful book aimed at all chess players who aspire to become chess masters shows you what the masters know and you don't Written by one of our biggest selling and best loved chess authors in his trademark chatty accessible but always informative style this book is filled with practical exercises and test games that will reveal the secrets of how to join chess's elite ranks *Masters of the Chessboard* Richard Reti, 2012-01-18 Reti's Other Classic Ask most chessplayers about the works by Richard Reti and most will quickly reply Modern Ideas in Chess His Masters of the Chessboard will be a distant second and that is unfortunate because in many ways Masters is more comprehensive and instructive than its better known predecessor He packs it with advice even for beginners Opening theory is a priority Reti tells the student to understand the basic idea of each opening and goes into considerable detail as he explains each of the popular lines of the day including of course his own Reti Opening Some of the finest parts of the book are the mini essays most of them on openings but also on rook endgames It's remarkable that Reti manages to do this without going into long variations This practical approach is also evident when he deals with positional themes For example Masters can be appreciated as almost a primer on the subject of how to turn the two bishops into a significant advantage As noted by American grandmaster Andy Soltis in his Foreword this entire book is wonderfully instructive And now it is available in a 21st century edition with figurine algebraic notation with many diagrams and photos added [Chess Master Vs. Chess Amateur](#) Max Euwe, Walter Meiden, 1963 Twenty five chess games chosen arranged and annotated to help amateurs learn how to avoid a variety of weak strategic and tactical moves Selected with commentary by World Chess Champion Max Euwe and by Walter Meiden an amateur player the games point out graphically how the chess master exploits characteristic errors of the amateur *Great Brilliancy Prize Games of the Chess Masters* Fred Reinfeld, 1995-01-01 Noted authority analyzes and annotates 50 games spanning nearly 70 years of competition recognized for imaginative and inventive combinations Steinitz vs Lasker London Capablanca vs Janowski New York Alekhine vs Marshall New York Botvinnik vs Tartakower Nottingham and many more Invaluable instruction for players at every level 50 diagrams **The Human Side**
