A Beginner's Guide to Introduce Artificial Intelligence in Teaching and Learning Muralidhar Kurni, Mujeeb Shaik Mohammed, Srinivasa K G, 2023-06-28 This book reimagines education in today's Artificial Intelligence AI world and the Fourth Industrial Revolution. Artificial intelligence will drastically affect every industry and sector, and education is no exception. This book aims at how AI may impact the teaching and learning process in education. This book is designed to demystify AI for teachers and learners. This book will help improve education and support institutions in the phenomena of the emergence of AI in teaching and learning. This book presents a comprehensive study of how AI improves teaching and learning from AI-based learning platforms to AI-assisted proctored examinations. This book provides educators, learners, and administrators on how AI makes sense in their everyday practice. Describing the application of AI in ten key aspects, this comprehensive volume prepares educational leaders, designers, researchers, and policymakers to effectively rethink the teaching and learning process and environments that students need to thrive. The readers of this book never fall behind the fast pace and promising innovations of today's most advanced learning technology. **Global Perspectives on**

**Micro-Learning and Micro-Credentials in Higher Education** Omona, Kizito, O'dama, Modest Kayi, 2024-02-27 In the rapidly evolving landscape of higher education where the acquisition of knowledge is a lifelong pursuit, educators and institutions are redefining the paradigms of learning through innovative approaches. **Global Perspectives on Micro Learning and Micro Credentials in Higher Education** delves into the intricate tapestry of contemporary education where the convergence of advanced pedagogies and cutting-edge technologies is reshaping traditional boundaries. As the realms of chatbots, gamification, and hybrid learning intersect, a new era of holistic education emerges seamlessly blending theoretical prowess with experiential wisdom. The book unfurls with meticulous exploration of pivotal themes embracing the nuanced realms of instructional design, learning analytics, and library services tailored for the modern educational era. From the granular landscapes of microlearning to the macroscopic view of global teacher retention strategies, the book leaves no stone unturned. This book is a symphony of intellectual rigor orchestrated to resonate with educators, administrators, researchers, and all stakeholders vested in the future of learning. **BUID Doctoral Research Conference 2023** Khalid Al

Marri, Farzana Asad Mir, Solomon Arulraj David, Mostafa Al-Emran, 2024-03-28 This open access book presents selected contributions on a wide range of scientific and technological areas originating from the BUID Doctoral Research Conference BDRC 2023. It discusses the following topics: project management, macroeconomic factors, Fourth Industrial Revolution, agility, multiculturalism, diversity, inclusion, leadership, language, discourse, analysis, curriculum, critical thinking, programming, online learning, and natural ventilation. The contributions reflect the multifaceted nature of the research in three academic disciplines: i.e. humanities, formal science, and applied science. This publication shares with its readers genuine research studies and reflections from practitioners on the current practice and understanding in the three academic disciplines. The

significant findings of these studies have considerable educational industrial and economic implications This is an open access book **Integrating Generative AI in Education to Achieve Sustainable Development Goals** Doshi, Ruchi,Dadhich, Manish,Poddar, Sandeep,Hiran, Kamal Kant,2024-06-03 A new challenge has become present in the field of generative artificial intelligence AI The fundamental nature of education a vital element for advancing the United Nations Sustainable Development Goals SDGs now grapples with the transformative impact of AI technologies As we stand at this intersection of progress and pedagogy critical questions surface about the future roles of educators and the integrity of assessment processes AI s rapid progression prompts an exploration of the competencies our education systems must cultivate in a world where human and machine intelligence are becoming increasingly interconnected Against this backdrop of transformative uncertainty Integrating Generative AI in Education to Achieve Sustainable Development Goals addresses profound challenges and offers promising solutions at the crossroads of AI and education This book assembles distinguished academics researchers and practitioners forming a collective voice on the intersection of Generative AI and education The three part structure dissects the technical aspects of AI powered innovations in educational design explores multidisciplinary applications enhancing educational content and highlights AI driven solutions to address equality and inclusion concerns within educational systems The book also underscores the importance of ethical considerations of generative AI to ensure a future where technology serves the broader goals of sustainability and equitable education *Impact and implications of AI methods and tools for the future of education* Kingsley Okoye,Samira Hosseini,Kamal Kant Hiran ,Julius Nganji,2024-06-07 The congruence of technology such as AI and its use for education can help transform the different pedagogical practices and future of education Educational organizations like The UNESCO and The World Bank are already calling for research and development oriented projects and creation mobilization of technological initiatives on how to re imagine education and operationalize the use of digital technologies for its purpose the Digitized Education Those goals mean or include methodological approaches and wide adoption of the AI methods in fostering education in the classroom or learning environments Also noteworthy is the fact that digitized education is now an inevitable and integral element to achieving the global sustainable development goals SDGs particularly the SDG4 that promotes quality of education The Parent-School Board Feuds Gerard Giordano,2024-10-02 During the COVID 19 pandemic parents were able to observe their children in online classes They were surprised by classroom discussions and assignments related to gender race ethnicity and religion along with the policies that were guiding curricula tests technology athletics discipline safety transportation funding and numerous other aspects of schools Parents began giving their advice to their school boards but when they were ignored they disrupted meetings wrote editorials created blogs staged rallies and lobbied state officials They were hoping to attract media attention and acquire political power and were stunned by their success TheParent School Board Feuds Essential Steps by Parents to Improve Schools recounts parent school board feuding about controversial classroom topics such as gender and
