

A dark, rainy city street at night. In the foreground, several people are walking, their figures partially obscured by the rain and the glow of city lights. They are holding umbrellas, some of which are open, reflecting the ambient light. The background is filled with the blurred lights and signs of a busy urban environment. A prominent sign for 'FOD' is visible on a building in the upper right, along with other less legible signs. The overall atmosphere is moody and atmospheric, with the rain adding a sense of movement and depth to the scene.

The representations used are often called relational probabilistic models. Lifted inference is about how to exploit the structure inherent in relational probabilistic models either in the way they are expressed or by extracting structure from observations. This book covers recent significant advances in the area of lifted inference providing a unifying introduction to this very active field. After providing necessary background on probabilistic graphical models, relational probabilistic models, and learning inside these models, the book turns to lifted inference, first covering exact inference and then approximate inference. In addition, the book considers the theory of liftability and acting in relational domains, which allows the connection of learning and reasoning in relational domains. *Lessons in the Study of Habits* Walter Lorenzo Sheldon, 1908

Winner of the CASEY Award for Best Baseball Book of the Year, National Sports Media Association Sports Book of the Year, An NPR Book of the Day, 1 New York Times bestselling author. Joe Posnanski is back with a masterful ode to the game, a countdown of 50 of the most memorable moments in baseball's history to make you fall in love with the sport all over again. Posnanski writes of major moments that created legends and of forgotten moments almost lost to time. It's Willie Mays's catch, Babe Ruth's called shot, and Kirk Gibson's limping home run. The slickest steals the biggest bombs, and the most triumphant no-hitters. But these are also moments raw with the humanity of the game: the unheralded heroes, the mesmerizing mistakes, drenched in pine tar, and every story from the immortal to the obscure is told from a unique perspective. Whether of a real fan who witnessed it or the pitcher who gave up the home run, the umpire, the coach, the opposing player, these are fresh takes on moments so powerful they almost feel like myth. Posnanski's previous book *The Baseball 100* portrayed the heroes and pioneers of the sport, and now with his trademark wit, encyclopedic knowledge, and acute observations, he gets at the real heart of the game. From nineteenth-century pitchers' duels to breaking the sport's color line in the 40s, all the way to the greatest trick play of the last decade and the slide home that became a meme, Posnanski's illuminating take allows us to rediscover the sport we love and thought we knew. *Why We Love Baseball* is an epic that ends too soon, a one-of-a-kind love letter to the sport that has us thrilled, torn, inspired, and always wanting more. **Social Theory and Practice**, 2002. *Association Men*, 1921. *The Open court*, 1891.
