Chen Yun's Strategy For China's Development A Non Maoist Alternative:

Chen Yun's Strategy for China's Development Nicholas R. Lardy, Kenneth Lieberthal, Dong Chen, 2019-07-25 Originally published in 1983 Since Mao Zedong's death the Chinese have been debating the future character of the country's political and economic system The present collection of Chen Yun's writings must be read against the backdrop of the ongoing policy discussion in the 1980s Chen has been and remains an advocate of economic policies that are central to this debate and since 1978 many of his views have become state policy In this context the publication in China of this volume of Chen's writings and speeches from 1956 to 1962 undoubtedly is designed in part to bolster Chen's point of view in policy discussions The author cites that the implicit message of this volume translated here in full is that had Chen's views been heeded earlier China would have developed rapidly and successfully

China's Road to Disaster: Mao, Central Politicians and Provincial Leaders in the Great Leap Forward, 1955-59 Frederick C Teiwes, Warren Sun, 2016-07-01 This text analyzes the dramatic shifts in Chinese Communist Party economic policy during the mid to late 1950s which eventually resulted in 30 to 45 million deaths through starvation as a result of the failed policies of the Great Leap Forward Teiwes examines both the substance and the process of economic policy making in that period explaining how the rational policies of opposing rash advance in 1956-57 gave way to the fanciful policies of the Great Leap and assessing responsibility for the failure to adjust adequately those policies even as signs of disaster began to reach higher level decision makers In telling this story Teiwes focuses on key participants in the process throughout both rational and utopian phases Mao other top leaders central economic bureaucracies and local party leaders The analysis rejects both of the existing influential explanations in the field the long dominant power politics approach focusing on alleged clashes within the top leadership and David Bachman's recent institutional interpretation of the origins of the Great Leap Instead this study presents a detailed picture of an exceptionally Mao dominated process where no other actor challenged his position where the boldest step any actor took was to try and influence his preferences and where the system in effect became paralyzed while Mao kept changing signals as disaster unfolded

China's Road to Disaster Frederick C. Teiwes, Warren Sun, 1998-12-14 This text analyzes the dramatic shifts in Chinese Communist Party economic policy during the mid to late 1950s which eventually resulted in 30 to 45 million deaths through starvation as a result of the failed policies of the Great Leap Forward Teiwes examines both the substance and the process of economic policy making in that period explaining how the rational policies of opposing rash advance in 1956-57 gave way to the fanciful policies of the Great Leap and assessing responsibility for the failure to adjust adequately those policies even as signs of disaster began to reach higher level decision makers In telling this story Teiwes focuses on key participants in the process throughout both rational and utopian phases Mao other top leaders central economic bureaucracies and local party leaders The analysis rejects both of the existing influential explanations in the field the long dominant power politics approach focusing on alleged clashes within the top leadership and David Bachman's recent

institutional interpretation of the origins of the Great Leap Instead this study presents a detailed picture of an exceptionally Mao dominated process where no other actor challenged his position where the boldest step any actor took was to try and influence his preferences and where the system in effect became paralyzed while Mao kept changing signals as disaster unfolded

The Nature of Chinese Politics: From Mao to Jiang Jonathan Unger, 2016-09-16 This book describes and analyzes how politics among the Chinese leadership has operated and evolved from the period of Mao's court up to the present day Part I explores politics under Mao and Deng For this section the five leading western analysts of elite Chinese politics Lowell Dittmer Lucian Pye Frederick Teiwes Andrew Nathan and Tsou Tang have contributed major papers that measure the empirical evidence against political science theory recent Chinese history and Chinese political culture Part II explores and analyzes the ongoing changes in Chinese politics during Jiang's tenure and includes analyzes by almost all the leading English language scholars in the field

Ch'en Yün's Strategy for China's Development Yun Ch'en, 1983 Originally published in 1983 Since Mao Zedong's death the Chinese have been debating the future character of the country's political and economic system The present collection of Chen Yun's writings must be read against the backdrop of the ongoing policy discussion in the 1980s Chen has been and remains an advocate of economic policies that are central to this debate and since 1978 many of his views have become state policy In this context the publication in China of this volume of Chen's writings and speeches from 1956 to 1962 undoubtedly is designed in part to bolster Chen's point of view in policy discussions The author cites that the implicit message of this volume translated here in full is that had Chen's views been heeded earlier China would have developed rapidly and successfully

How China Escaped Shock Therapy Isabella M. Weber, 2021-05-26 China has become deeply integrated into the world economy Yet gradual marketization has facilitated the country's rise without leading to its wholesale assimilation to global neoliberalism This book uncovers the fierce contest about economic reforms that shaped China's path In the first post Mao decade China's reformers were sharply divided They agreed that China had to reform its economic system and move toward more marketization but struggled over how to go about it Should China destroy the core of the socialist system through shock therapy or should it use the institutions of the planned economy as market creators With hindsight the historical record proves the high stakes behind the question China embarked on an economic expansion commonly described as unprecedented in scope and pace whereas Russia's economy collapsed under shock therapy Based on extensive research including interviews with key Chinese and international participants and World Bank officials as well as insights gleaned from unpublished documents the book charts the debate that ultimately enabled China to follow a path to gradual reindustrialization Beyond shedding light on the crossroads of the 1980s it reveals the intellectual foundations of state market relations in reform era China through a longue dure lens Overall the book delivers an original perspective on China's economic model and its continuing contestations from within and from without

Peasant Power in China Daniel Kelliher, 1992-11-25 Between 1979 and 1989 rural life in China was transformed

the communes were dismantled tiny family farms were created government domination of commerce and enterprise was eased and many entrepreneurial ventures were brought to life China's rural reform was arguably the most massive single act of privatization in history Although Deng Xiaoping's government claimed credit for the dramatic innovations Daniel Kelliher shows that it was the peasants themselves with no organization or legal political voice of their own who instigated the most radical changes of the reform era Drawing on his fieldwork in Hubei Province and neighboring provinces in south central China Kelliher traces the origins of reform in three areas family farming marketing and private entrepreneurship and details the local conspiracies deceptions and illegal experiments that peasants used to push state policy in new directions He also addresses the larger issue of how disenfranchised peasants could affect politics at all under a strong state like that of China Analyzing the evolution of state socialism in China Kelliher explains how state ambitions for modernization in the post Mao era made the state socialist system vulnerable to rising peasant power He also shows why the state seized upon economic privatization as a way of securing its political base among the peasantry The book not only offers a wide ranging portrait of rural politics in contemporary China but also uses the Chinese case to illuminate state peasant relations reform in state socialism and privatization in other third world nations

Susan Greenhalgh, Edwin A. Winckler, 2005 China's giant project in social engineering has drawn worldwide attention both because of its coercive enforcement of strict birth limits and because of the striking changes that have occurred in China's population one of the fastest fertility declines in modern history and a gender gap among infants that is the highest in the world These changes have contributed to an imminent crisis of social security for a rapidly aging population provoking concern in China and abroad What political processes underlie these population shifts What is the political significance of population policy for the PRC regime the Chinese people and China's place in the world The book documents the gradual governmentalization of China's population after 1949 a remarkable buildup of capacity for governance by the regime the professions and individuals Since the turn of the millennium the regime has initiated a drastic shift from hard Leninist methods of birth planning toward soft neoliberal approaches involving indirect regulation by the state and self regulation by citizens themselves Population policy once a lagging sector in China's transition from communism is now helping lead the country toward more modern and internationally accepted forms of governance *Governing China's Population* tells the story of these shifts from the perspectives of both regime and society based on internal documents long term fieldwork and

interviews with a wide range of actors policymakers and implementers propagandists and critics compliers and resisters This study also illuminates the far reaching consequences for China s society and politics of deep state intrusion in individual reproduction Like Mao s Great Leap Forward Deng s one child policy has created vast social suffering and human trauma Yet power over population has also been positive and productive promoting China s global rise by creating new kinds of quality persons equipped to succeed in the world economy Politically the PRC s population project has strengthened the regime and created a whole new field of biopolitics centering on the production and cultivation of life itself Drawing on approaches from political science and anthropology that are rarely combined this book develops a new kind of interdisciplinary inquiry that expands the domain of the political in provocative ways The book provides fresh answers to broad questions about China s Leninist transition regime capacity science and democracy and the changing shape of Chinese modernity

The Politics of Wage Policy in Post-revolutionary China Akio Takahara,1992 Presents an analysis of the political processes involved in China s wage policy Akio Takahara illuminates the political conflicts and interests among national policy makers local authorities grassroots units and various socio economic groups and identifies constraints on wage reform [List of Recent Periodical Articles](#) Joint Bank-Fund Library,1983 [Economic Books](#) ,1983 **A History of the Chinese Communist Party** Stephen Uhalley,1988 *Bibliographie der Wirtschaftswissenschaften* ,1984 [Bibliographie der Staats-und Wirtschaftswissenschaften](#) ,1983 **The Economics and Politics of Transition to an Open Market Economy** Wing Thye Woo,1999
