Youth, Faith, and Artificial Intelligence Zaremohzzabieh, Zeinab, Abdullah, Rusli, Al-Issa, Riyadh Salim, Ahrari, Seyedali, 2025-08-29 As AI continues to reshape society its intersection with the younger generation and faith has presented opportunities and ethical questions For the youth navigating their beliefs and identity has become increasingly difficult in this modern world AI can serve as a tool and a hindrance to spiritual exploration and a challenge to traditional values Faith communities in turn are grappling with how to engage youth meaningfully in an era shaped by algorithms virtual interactions and machine learning Youth Faith and Artificial Intelligence explores the rapid advancement of AI and its impact on the way we interact with the youth This book examines how theological perspectives can help youth navigate the complexities of an AI driven society Covering topics such as AI youth and engagement this book is an excellent resource for sociologists researchers academicians educators and more My Therapist Is an AI – Can a Machine Understand the Human Soul? Leopoldo Ceballos del Castillo, 2025-07-23 Today between 500 and 700 million people around the world use artificial intelligence the so called chatbots to talk about their emotions seek comfort or resolve personal conflicts In numerous documented cases these interactions have led to psychotic episodes severe crises or decisions driven by misleading advice hallucinations or fabricated information generated by the AI itself Leopoldo Ceballos drawing on his dual background as a computer engineer and psychologist offers a bold and clarifying perspective to understand why millions of people prefer to talk to a machine instead of another human being and what we can do as a society to address this trend without giving up on our humanity The result is a critical and practical guide for using AI responsibly recognizing its real risks exploring accessible human alternatives and applying prompt engineering principles to minimize errors and misunderstandings when no other option is available A book for those brave enough to look beyond the glow of technology and ask themselves Are we truly ready to talk about our emotions with an artificial intelligence **Academia Next** Bryan Alexander, 2020-01-14 From the renowned futurist a look at how current trends will transform American higher education over the next twenty years 2020 Most Significant Futures Work Award Winner Association of Professional Futurists The outlook for the future of colleges and universities is uncertain Financial stresses changing student populations and rapidly developing technologies all pose significant challenges to the nation s colleges and universities In Academia Next futurist and higher education expert Bryan Alexander addresses these evolving trends to better understand higher education s next generation Alexander first examines current economic demographic political international and policy developments as they relate to higher education He also explores internal transformations within postsecondary institutions including those related to enrollment access academic labor alternative certification sexual assault and the changing library paying particularly close attention to technological changes Alexander then looks beyond these trends to offer a series of distinct scenarios and practical responses for institutions to consider when combating shrinking enrollments reduced public support and the proliferation of

technological options Arguing that the forces he highlights are not speculative but are already in play Alexander draws on a rich extensive and socially engaged body of research to best determine their likeliest outcomes It is only by taking these trends seriously he writes that colleges and universities can improve their chances of survival and growth An unusually multifaceted approach to American higher education that views institutions as complex organisms Academia Next offers a fresh perspective on the emerging colleges and universities of today and tomorrow Treatment Program Evaluation

Allyson Kelley,2022-06-01 This invaluable text provides a rigorous guide to the assessment and evaluation of treatment programs through a multi disciplinary holistic model of care It highlights issues of race social justice and health equity and offers real world guidance to effect community healing and transformation Written by a researcher and experienced evaluator the book begins by outlining the theories and research which frame our understanding of substance misuse and upon which treatment programs are based It then examines the principles which should underpin any evaluation before detailing the practical various steps required to conduct an evaluation from data collection to outcome measurement The book shows too through detailed and effective evaluation policy changes can be made and treatment programs improved Including practical examples of evaluation and assessment throughout and also assessing the numerous social systems which can support recovery the book builds to a four step public health model for establishing sustainable treatment programs In an era where substance misuse has reached epidemic proportions in the United States and beyond this book will be essential reading for anyone involved in public health policy and practice in this important area **The Journal of the Acoustical**
