Bayer,Christian Grimme,2024-10-24 This volume originated from an international interdisciplinary research course organized by the Institute of Information Management of the University of Münster in 2021/2022 funded by the DAAD IVAC sponsorship program. The coauthors and their contributions represent different disciplines fusing perspectives of law and information sciences. The contributions present current issues in AI ethics and human rights, policing, privacy and surveillance, social media and data protection. The book has a further mission: it offers insight into a novel educational format that combines an intercultural learning environment with interdisciplinary co-working, e-learning methods, peer education and interactive group work. *NSTS Tips & Cues*, 1960 **Design in the Era of Industry 4.0, Volume 1** Amaresh Chakrabarti, Vishal Singh, 2023-07-25 This book showcases cutting edge research papers from the 9th International Conference on Research into Design ICoRD 2023, the largest in India in this area, written by eminent researchers from across the world on design processes, technologies, methods and tools and their impact on innovation for supporting design for a connected world. The theme of ICoRD 23 has been Design in the Era of Industry 4.0. Industry 4.0 signifies the fourth industrial revolution. The first industrial revolution was driven by the introduction of mechanical power such as steam and water engines to replace human and animal labour. The second industrial revolution involved introduction of electrical power and organised labour. The third industrial revolution was powered by introduction of industrial automation. The fourth industrial revolution involves introduction of a combination of technologies to enable connected intelligence and industrial autonomy. The introduction of Industry 4.0 dramatically changes the landscape of innovation and the way design, the engine of innovation, is carried out. The theme of ICoRD 23, Design in the Era of Industry 4.0, explores how Industry 4.0 concepts and technologies influence the way design is conducted and how methods, tools and approaches for supporting design can take advantage of this transformational change that is sweeping across the world. The book is of interest to researchers, professionals and entrepreneurs working in the areas of industrial design, manufacturing, consumer goods and industrial management who are interested in the new and emerging methods and tools for design of new products, systems and services.
