Playing to Win Hilary Levey Friedman, 2013-08-03 Many parents work more hours outside of the home and their lives are crowded with more obligations than ever before many children spend their evenings and weekends trying out for all star teams traveling to regional and national tournaments and eating dinner in the car while being shuttled between activities In this vivid ethnography based on almost 200 interviews with parents children coaches and teachers Hilary Levey probes the increase in children's participation in activities outside of the home structured and monitored by their parents when family time is so scarce As the parental second shift continues to grow alongside it a second shift for children has emerged

especially among the middle and upper middle classes which is suffused with competition rather than mere participation. What motivates these particular parents to get their children involved in competitive activities? Parents' primary concern is their children's access to high quality educational credentials, the biggest bottleneck standing in the way of or facilitating entry into membership in the upper middle class. Competitive activities like sports and the arts are seen as the essential proving ground that will clear their children's paths to the Ivy League or other similar institutions by helping them to develop a competitive habitus. This belief motivated both by reality and by perception and shaped by gender and class affects how parents envision their children's futures; it also shapes the structure of children's daily lives, what the children themselves think about their lives and the competitive landscapes of the activities themselves. *Youth Cultures in America* Simon J. Bronner, Cindy Dell Clark, 2016-03-21. What are the components of youth cultures today? This encyclopedia examines the facets of youth cultures and brings them to the forefront. Although issues of youth culture are frequently cited in classrooms and public forums, most encyclopedias of childhood and youth are devoted to history, human development and society. A limitation on the reference bookshelf is the restriction of youth to pre-adolescence, although issues of youth continue into young adulthood. This encyclopedia addresses an academic audience of professors and students in childhood studies, American studies and culture studies. The authors span disciplines of psychology, sociology, anthropology, history and folklore. The *Encyclopedia of Youth Cultures in America* addresses a need for historical, social and cultural information on a wide array of youth groups. Such a reference work serves as a corrective to the narrow public view that young people are part of an amalgamated youth group or occupy malicious gangs and satanic cults. Widespread reports of bullying, school violence, dominance of athletics over academics and changing demographics in the United States has drawn renewed attention to the changing cultural landscape of youth in and out of school to explain social and psychological problems. **Forthcoming Books** Rose Arny, 2001-08 **Chess Life**, 2005 [Chess Player's Chronicle](#), 1882 *Children's Books in Print* R R Bowker Publishing, Bowker, 1999-12 *The Saturday Review of Politics, Literature, Science and Art*, 1906 [The Academy](#), 1899 *Time* Briton Hadden, Henry Robinson Luce, 1927 Reels for 1973 include Time index 1973 **Canal Record, Published Weekly Under Authority and Supervision of Isthmian Canal Commission**, 1910 [Men and Women of the Time](#) Victor Plarr, 1899 **The British Chess Magazine**, 1925 **Boys' Life**, 1988-02 Boys' Life is the official youth magazine for the Boy Scouts of America.
