Pinterest Profit Secrets 2021 Edition Training Guide Laura Maya,2021-10-30 Is Pinterest the New Google Google is a search engine That means whatever you re looking for you can Google it From obscure song lyrics to how to hem pants you can Google a term or phrase and find videos images and links to relative content Sort of like Google Pinterest is a visual search engine Pinterest uses a visual platform of images that stand alone as content but also link to resources for deeper and richer information and engagement Like Google you can use key words and phrases to search for relative content Even better than Google you can save your links or pins to boards which are a helpful way to organize content Googling a word or phrase can generate the top ten or so articles images and other content relative to that search Many of the results are paid ads which rank higher than organic content Pinterest however can generate many more results from a search and each and every image offered can lead to a deeper dive experience about a subject or related topic In this way Pinterest may be better than Google for specific searches Can Pinterest be Used for Business When it comes to certain topics like recipes

[The Beginner's Guide to Blogging](#) David Grete, 2020-05

It all started about a decade ago when the economy went south and I lost my job. I found myself without purpose, surviving on unemployment checks and aimlessly searching for an alternative way to earn a living. Contrarily, losing my job was one of the best things that has ever happened to me. The part I didn't handle so well was the uncertainty. How was I going to support myself? What was I going to do with myself? Every day I faced the daunting task of finding a new job, no easy feat during the great financial crash of 2008-2009 and the biggest economic downturn in my life. I'd heard of the possibilities of blogging. There were a few bloggers doing what I could only dream of doing: making a living just for doing something they loved. I gave it some consideration and contacted some of them. Many were kind enough to answer my emails, and some gave me some solid advice on getting started with my very own blog. Have you noticed how some bloggers make six or seven-figure incomes while others struggle to even make 100? What if I could teach you some key skills and habits that could make your blog a true success financially? One of the biggest secrets I can share about blogging, one that I quickly came to understand from other successful communicators, is that you have to be passionate about what you're writing. But this book has so much more to offer. In this book, you'll find easy, step-by-step instructions on how to set up your very own blog, analyze and select a specific niche that is both profitable and that you are passionate about, promote and market your blog using several proven social media marketing strategies, apply basic content strategy and design elements to your blog posts to make them go viral, apply 25 essential blogging tips that can help you turn passion into profit. While you may not get instantly rich from blogging, it is something you can easily build upon in your spare time and expand into a full-fledged career path. In this book, you will learn everything you need to know to get a huge advantage in blogging by standing on the shoulders of some of the most successful bloggers ever to put words on a page. For less than a cup of coffee, this book will literally teach you how to turn your passion into profit, become your own boss, and eventually leave the day job behind.
