Translator Nicolle Raven PUBLISHER TEKTIME **The Digital and AI Coaches' Handbook** Jonathan Passmore,Sandra J. Diller,Sam Isaacson,Maximilian Brantl,2024-06-28 This comprehensive practitioner guide supports coaches in developing their understanding of digital technologies and how to work in ever changing digital environments and shows coaches how to craft their own practices to take advantage of working online The practice of coaching is undergoing significant change with technology widely embedded and used in professional coaching services today Coaching practitioners worldwide are adapting to digital environments and a host of new technological tools have come into play from the developments in virtual reality to AI informed coaching and from coaching bots to workplace apps Edited by Jonathan Passmore Sandra J Diller Sam Isaacson and Maximilian Brantl this third book in the acclaimed Coaches Handbook Series brings together internationally respected coaching experts and practitioners to share the most up to date know how The book takes you through key technical developments the critical factors in making digital coaching successful and how to build a coaching business using these technologies The book also considers the impacts on the wider industry and concludes with a number of case studies of global coaching organisations and their experiences of using digital techniques including CoachHub and EZRA Aimed at coach practitioners their supervisors trainers and student coaches on accreditation programmes or undertaking training for a certificate in coaching this book showcases best practice new ideas and the science behind the digital revolution within coaching practice and the coaching industry Technology for the greater good? The influence of (ir)responsible systems on human emotions, thinking and behavior Andrea Szymkowiak,Lynsay Shepherd,Martina Ziefle,Philipp Brauner,Jason Nurse,2024-04-19 Invocational Media Chris Chesher,2023-10-19 Invocational Media critiques the sociotechnical power of digital technologies by introducing the concept of invocational media What is an invocation Ask your voice assistant and it will define it for you It is a media artefact that responds to many invocations such as seeking the weather forecast requesting any song you can name or turning on the lights almost magically This contemporary manifestation of the ancient practice of invocation gives an immediate response to your call in a way that Chris Chesher argues is the characteristic power of all computers which he redefines as invocational media This book challenges the foundations of computer science by offering invocation as a powerful new way of conceptualising digital technologies Drawing on media philosophy Deleuze Guattari

Heidegger Latour Austin Innis and McLuhan it critiques the representationalism of data processing artificial intelligence and virtual reality Invocational media seem to empower individuals but necessarily subject users to corporate and government monopolies of invocation They offer many solutions but only by reducing everything to the same kind of act They complicate agency in their indifference as to whether invokers are human or non human With robotics they invoke material form to act physically and autonomously People willingly make themselves invocable to surveillance and control by creating their own profiles and marking themselves with biometrics This ground breaking book will change how you think about digital media by showing they are in fact invocational media **Dr. Dobb's Journal** ,1995 **Weekly World News** ,2002-10-29 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world s only reliable news source since 1979 The online hub www.weeklyworldnews.com is a leading entertainment news site
