Write Like You Teach James M. Lang,2025-05-09 This engaging guide offers practical advice to teachers on how to utilize their existing classroom skills to become more effective public writers After years spent cultivating their expertise and passion for a subject scholars are uniquely positioned to write great books Yet accustomed to writing for an audience of their peers many scholars find it challenging to adapt their writing to a style that is accessible and engaging to the general public James M Lang argues that academics are regularly called on to pitch their research to a general audience their undergraduates If only there were a way to translate the skills they use in the classroom into their writing In Write Like You Teach Lang a veteran writer and teacher distills the elements of good classroom teaching into guidelines for writing for a general audience He encourages authors to pay attention to how their readers learn and to embrace exploration experimentation and creativity in their writing Lang asks his readers to consider the questions that all great teachers ask themselves How will I get the attention of my students How do I make them curious about the subject What stories or examples will illustrate the more difficult concepts or theories in the course When will I pause in the class and give students a break from hard thinking What will I do at the end of the class to remind students about my key messages and leave them wanting to know more Write Like You Teach includes examples from successful writers and useful

anecdotes from Lang's own classroom and writing career. Indeed, Lang takes his own advice to heart like a good teacher; he varies the form of each chapter, making sure to introduce some surprises to keep the reader engaged. Each chapter ends with writing prompts to help readers practice their newly acquired skills, and an appendix provides additional advice on publishing and promoting one's work. Teachers who follow Lang's suggestions will find new ways to connect with their readers, and like any good student, they will never approach writing the same way again. **To the Point** Robert Hartwell Fiske, 2014-03-17

Christian Nation, 1928 **Engaging Audience** M. Elizabeth Weiser, Brian Fehler, Angela Marta González, 2009. This collection of essays about audience awareness from professionals in the English public relations and writing fields is based on the latest work of scholars Lisa Ede and Andrea Lunsford. This collection builds upon Lisa Ede and Andrea Lunsford's groundbreaking work to examine the rhetorical concept of audience as it relates to twenty-first-century teaching and learning. Editors M. Elizabeth Weiser, Brian M. Fehler, and Angela M. González bring together compositionists from the departments of English, communications, public relations, and writing to offer insights that serve as a guide for incorporating audience awareness into the contemporary classroom. Contributors engage in a dialogue with Ede and Lunsford's previously published essays *Audience Addressed*, *Audience Invoked*, *The Role of Audience in Composition Theory and Pedagogy*, and *Representing Audience*. *Successful Discourse and Disciplinary Critique*, as well as their new essay *Among the Audience*. On audience in an Age of New Literacies, written especially for this collection. Through these engagements, contributors offer insights on audience from divergent perspectives: composition, pedagogy, new media studies, service learning, and professional writing. Diversity and rhetorical and literary theory that establish a third category in the addressed/invoked binary: an audience updated that takes various professional and cultural forms but is most evidently audience-interacting. **Pennsylvania**
