Actionable Hybrid Work Schedule For Beginners For Dads:

Beyond Hybrid Working Andy Lake, 2023-12-22 Much more than a book about flexible working *Beyond Hybrid Working* is an engaging and practical management book to help organisations rethink all aspects of traditional work in the emerging post pandemic landscape and reap the benefits from working smarter Many organisations that had rapidly improvised and implemented Hybrid Working now want to take a more strategic approach Smart Working is being adopted across sectors from technology companies through the financial services sector to the public sector Andy Lake has supported implementations in businesses and public sector organisations for nearly 30 years including advising the UK Cabinet Office He sets out a strategic comprehensive and integrated approach to Smart Working in the context of new possibilities for working on a more distributed basis and the impact of new AI based technologies coming over the horizon He also explores the possibilities for greater flexibility for workers with hands on and site specific roles Featuring detailed case studies the book takes a pragmatic and evidence based approach covering different sectors and types of work and presents practical techniques for implementing change This is essential reading for anyone involved in transformational workplace change and increasing the efficiency of organisations It is written for managers who need to deliver change and professionals and researchers in the fields of People Workplace and Technology

Building Tomorrow's Biomedical Workforce: Evaluation of How Evidence-Based Training Programs Align Skill Development and Career Awareness with a Broad Array of Professions Adriana Bankston, Rebekah L. Layton, Audra Van Wart, 2025-08-27 Building the future STEM workforce requires robust federal investments to support the next generation of innovators as well as systemic changes to enable graduate and postdoctoral researchers to transition with confidence into the biomedical workforce This effort involves the transformation of the biomedical research enterprise and training environment at all levels but especially at the predoctoral and postdoctoral levels Innovative initiatives in education and training as well as career and professional development of biomedical trainees are necessary to build upon the robust biomedical workforce of today and create and sustain a diverse innovative and highly trained biomedical workforce of tomorrow An important aspect of supporting the biomedical workforce relates to changes within training and the research enterprise with opportunities for re imagining what STEM education should look like at different levels including providing agency for junior scientists in the field The future of the field should focus on inclusivity supporting trainees from different backgrounds and with diverse perspectives including but not limited to intersectional identities in race ethnicity gender sexual orientation first generation status and international talent in STEM This requires critical policy changes in order to support the transition of biomedical research professionals into the labor market
