Proceedings of the XVII International symposium Symorg 2020 Dušan Starčević,Sanja Marinković,2020-06-30 Ever since 1989 the Faculty of Organizational Sciences University of Belgrade has been the host of SymOrg an event that

promotes scientific disciplines of organizing and managing a business. Traditionally the Symposium has been an opportunity for its participants to share and exchange both academic and practical knowledge and experience in a pleasant and creative atmosphere. This time however due to the challenging situation regarding the COVID 19 pandemic we have decided that all the essential activities planned for the International Symposium SymOrg 2020 should be carried out online between the 7th and the 9th of September 2020. We are very pleased that the topic of SymOrg 2020 Business and Artificial Intelligence attracted researchers from different institutions both in Serbia and abroad. Why is artificial intelligence a disruptive technology? Simply because it significantly alters the way consumers, industries or businesses operate. According to the European Commission document titled Artificial Intelligence for Europe 2018 AI is a key disruptive technology that has just begun to reshape the world. The Government of the Republic of Serbia has also recognized the importance of AI for the further development of its economy and society and has prepared an AI Development Strategy for the period between 2020 and 2025. The first step has already been made: the Science Fund of the Republic of Serbia after a public call has selected and financed twelve AI projects. This year more than 200 scholars and practitioners authored and co-authored the 94 scientific and research papers that had been accepted for publication in the Proceedings. All the contributions to the Proceedings are classified into the following 11 sections: Information Systems and Technologies in the Era of Digital Transformation; Smart Business Models and Processes; Entrepreneurship; Innovation and Sustainable Development; Smart Environment for Marketing and Communications; Digital Human Resource Management; Smart E-Business; Quality 4.0 and International Standards; Application of Artificial Intelligence in Project Management; Digital and Lean Operations; Management Transformation of Financial Services; Methods and Applications of Data Science in Business and Society. We are very grateful to our distinguished keynote speakers: Prof. Moshe Vardi, Rice University, USA; Prof. Blaž Zupan, University of Ljubljana, Slovenia; Prof. Vladan Devedžić, University of Belgrade, Serbia; Milica Jurić, PhD Director, Science Fund of the Republic of Serbia; and Harri Ketamo, PhD Founder, Chairman of HeadAI Ltd, Finland. Also special thanks to Prof. Dragan Vukmirović, University of Belgrade, Serbia; and Prof. Zoran Ivarac, University of Belgrade, Serbia, for organizing workshops in fields of Data Science and Machine Learning; and to Prof. Rade Matić, Belgrade Business and Arts Academy of Applied Studies; and Milan Dobrota, PhD, CEO at Agremo, Serbia, for their valuable contribution in presenting Serbian experiences in the field of AI. The Faculty of Organizational Sciences would like to express its gratitude to the Ministry of Education, Science and Technological Development and all the individuals who have supported and contributed to the organization of the Symposium. We are particularly grateful to the contributors and reviewers who made this issue possible. But above all, we are especially thankful to the authors and presenters for making the SymOrg 2020 a success.
