Work from Home Jobs Diana Loera, 2015-01-23 Unfortunately many qualified people struggle daily to find jobs in our down economy. People are sending in over a 100 resumes and not even hearing back on 1. Then we have the other group: these are people who have tapped into the work from home job opportunities. I'm NOT referring to multi level marketing or piecework freelance such as eLance but real jobs full time and part time jobs. Jobs with insurance and 401k options. Jobs that pay well and are even better as you have no commuting expenses, no gas expenses and no work clothing expenses. As someone who has been in the direct response infomercial industry for many years, I've accumulated a wealth of contacts and interestingly enough many of them offer work from home job opportunities. If you are looking for a job either long term or to hold you over until you find the job you want if you live in a remote area if you are disabled whatever your reason if you want a legit job to do from home I hope you'll take a look at the resources in this book. I haven't given you a 100 or 200 or 300 resources 30 resources that I hand picked and many whose business I have personally been in. **Undress for Success** Kate Lister, Tom Harnish, 2009-04-01 This book is for the bummed out, burned out and stressed out professional, stay at home parent or retiring boomer who dreams of a home based job or business but doesn't know how to make that dream a reality. Unlike the many change your life books that promise much and deliver little, Undress4Success provides expert practical advice about 1 what home based jobs are available, what talents they require, what they pay, who's hiring and how to land one, 2 how to use the Web to search for work at home jobs and business opportunities without being scammed, 3 how to turn professional talents into a freelance business and 4 how to convince an employer to adopt a telecommuting program. Based on interviews with dozens of employers, home based employees, successful freelancers and leading telework researchers, this book shows readers the way home.
