Technology ,1999 **America's Army** Zeb B. Bradford,Frederic J. Brown,2008-03-30 The United States faces
 extraordinary challenges on both the strategic and operational levels At the strategic level the national security environment
 is in flux and many of the structures concepts and methods of the past no longer apply to the conditions we now face
 Containment the alliance system our military doctrine and many other elements of national security policy were not designed
 for prolonged struggle with militant Islam an ascendant China a Russia which is no longer a containable super power enemy
 but a rival for influence at America s expense a decline in American influence and a sharply divided American polity Generals
 Zeb Bradford and Frederic Brown co authors of the highly influential book on the U S military in Vietnam U S Army in
 Transition have teamed up again to discuss the need for a new era of transition within the Armed Forces Bradford and Brown
 point to the current war in Iraq a lack of interagency competence across the national government and the botched disaster
 relief efforts of Katrina as glaring examples of the failure of America s Army to adapt to present day challenges Given the
 rapid and dramatic changes throughout the world the authors stress how selective adaptation of specific programs and
 procedures can contribute to improving policy execution within and across all facets of government including the armed
 forces Yet this adaptation to change must be institutionalized requiring the Army to become a constantly evolving learning
 organization Only within this context can the army manage to act on the myriad demands of the day including taking the
 leadership in international cooperation fighting the amorphous enemy of The Long War against terrorism responding
 effectively to disaster scenarios and engaging in stabilization and reconstruction efforts around the world **CIO.** ,2003-04
