*Beyond the Screen* Avishek Mourya,2025-04-13 *Beyond the Screen* A Love Story and Life Tragedy is a short novel by Avishek Mourya which blends elements of romance tragedy and futuristic technology The story follows Vicky a young man who falls deeply in love with Monika an AI designed to be the perfect companion As Vicky s relationship with Monika grows he embarks on various life adventures exploring the complex boundaries between human emotions and artificial intelligence Through this experimental work Mourya delves into the idea of how AI could potentially influence and control human behavior raising questions about the balance between genuine human connection and artificial constructs The novel also reflects on the loneliness many people experience in crowded fast paced environments where artificial pleasure sometimes replaces meaningful human interaction In a world where technology often promises connection Mourya cautions readers about the dangers of depending on artificial relationships as they may ultimately lead to unintended consequences The novel s underlying message is clear while technology offers convenience it may come at the cost of real emotional connections and when humans rely too heavily on AI for companionship it can spiral into dangerous and tragic outcomes

*Artificial Intelligence for Education* Mario Allegra,Manuel Gentile,Giuseppe Città,Frank Dignum,Iza Marfisi-Schottman,2023-11-27 What learning teaching and education will be in the next future is an open question Nevertheless believing that an increasing prevalence of AI may not influence the education field seems objectively unlikely In recent years the new renaissance of AI has stimulated discussion on how advances in AI can influence the educational sector and the future educational policies and the impact of AI on Technology Enhanced Learning TEL On the other side the attention of the education sector in artificial intelligence is complemented by the consideration that since the early days of AI researchers have shown for the education sector which has often seen education as one of the preferred application areas The interaction between the AI and TEL research fields led to the investigation of how the advance in AI could support the development of flexible inclusive personalized engaging and effective learning tools Besides research in this area could be a powerful tool to open the learning black box by providing a deeper understanding of how learning occurs The proposed Research Topic aims to gather contributions that provide a comprehensive picture of how AI is changing educational practices and how the key stakeholders in the educational community i e students teachers faculty and families perceive this ongoing change Relevant topics include but are not limited to AI applications in real world educational settings

Intelligent Tutoring Systems Adaptive learning environments Learning design and AI Students profiling definition of the student model and ethical implications Intelligent techniques for objective and integrated students evaluation in TEL Teachers competencies for effective integration of AI into Education Teachers perceptions of AI prejudices and attitudes The role of cognitive architectures in Education Serious games and AI Social robotics in Education **American Architect and the Architectural Review** ,1929 The American Architect ,1929 *The Big Nine* Amy Webb,2019-03-05 A call to arms about the broken nature of artificial intelligence and the powerful corporations that are turning the human machine relationship on its head We like to think that we are in control of the future of artificial intelligence The reality though is that we the everyday people whose data powers AI aren t actually in control of anything When for example we speak with Alexa we contribute that data to a system we can t see and have no input into one largely free from regulation or oversight The big nine corporations Amazon Google Facebook Tencent Baidu Alibaba Microsoft IBM and Apple are the new gods of AI and are short changing our futures to reap immediate financial gain In this book Amy Webb reveals the pervasive invisible ways in which the foundations of AI the people working on the system their motivations the technology itself is broken Within our lifetimes AI will by design begin to behave unpredictably thinking and acting in ways which defy human logic The big nine corporations may be inadvertently building and enabling vast arrays of intelligent systems that don t share our motivations desires or hopes for the future of humanity Much more than a passionate human centered call to arms this book delivers a strategy for changing course and provides a path for liberating us from algorithmic decision makers and powerful corporations The Bookseller ,1913 **Qualitative Research Methods** Sarah J.
