**Humanising Language Education in the Generative Artificial Intelligence Age** Jérémie Bouchard, 2026-01-26 Examining the presence and influence of GenAI in the contexts of English for Academic Purposes EAP and written composition within university level English as a foreign language EFL programmes this book asserts a humanist view of language education informed by critical realism and the social realist philosophy of education J r mie Bouchard looks at the GenAI language education interaction through explicit philosophical engagement with the aim of strengthening a

critical and emancipatory approach to EAP written composition and language education By highlighting technological determinism and relating it to broader neoliberalist mechanisms the book provides new insights into the social political economic cultural and historical contexts within which the use of GenAI technologies by language teachers and learners can be understood Humanising Language Education in the Generative Artificial Intelligence Age will appeal to students and scholars of linguistics education and sociology as well as organisations devoted to understanding the evolution application and impact of GenAI on education and language learning The Rise of Generative AI. Applications, Challenges, and Ethical Implications Fatlind Mazreku, 2025-12-10 Scientific Study from the year 2025 in the subject Computer Sciences Artificial Intelligence language English abstract Generative Artificial Intelligence AI refers to algorithms and models capable of producing new content such as text images music or code that mimics or even rivals human creations Recent breakthroughs in model architectures e g transformers and the advent of large scale models like OpenAI s GPT 3 and DALL E have fueled an explosive growth in generative AI s capabilities and public adoption This paper provides an overview of generative AI s rise and its transformative impact across various fields We discuss key applications of generative AI in domains ranging from art and design to software development and medicine highlighting the innovative benefits it brings such as enhanced creative productivity and new problem solving tools At the same time we examine the challenges and ethical concerns emerging from generative AI s widespread use issues of bias misinformation intellectual property and misuse that have become increasingly urgent We also analyze the current technical limitations of generative AI including accuracy interpretability and resource demands and consider future outlooks for the technology The findings underscore that while generative AI offers unprecedented opportunities and innovations careful consideration of its ethical implications and proactive governance is essential to ensure it is developed and used responsibly In conclusion generative AI stands as a powerful tool that is reshaping creativity industry and society and its continued evolution will depend on balancing its benefits with diligent management of its risks **Business Entrepreneurship and Innovation** Samer Ajour El Zein, **Think Like a Human** David Weitzner, 2025-05-13 A new way of thinking that improves how we work create and live empowering readers to outsmart AI a tool that can never do what humans do The bedrock on which technology has been built and on which we now make strategic political ethical and even day to day decisions algorithmic thinking is flawed As we race headlong into a future where we outsource all our problem solving to artificial intelligence the greatest threat is not superintelligent machinery but too much trust in Big Tech and not enough trust in the power of our own minds Think Like a Human offers a new way forward what Dr Weitzner calls artful intelligence a philosophy that can help each of us solve problems and make better decisions To think artfully is to approach problem solving not just with our brains but with our hands eyes and ears along with our literal and metaphorical hearts and guts tapping into the myriad of underutilized cognitive resources distributed throughout our bodies Think Like a Human is a refreshing antidote and reality check to artificial intelligence

mania and fear Cutting through the hype misinformation and corporate hustle around AI this book will inspire you to adopt the artful approach bringing intuition and emotional intelligence to your work and life *The AI Con* Emily M. Bender, Alex Hanna, 2025-05-13 A smart incisive look at the technologies sold as artificial intelligence the drawbacks and pitfalls of technology sold under this banner and why it is crucial to recognize the many ways in which AI hype covers for a small set of power hungry actors at work and in the world Is artificial intelligence going to take over the world Have big tech scientists created an artificial lifeform that can think on its own Is it going to put authors artists and others out of business Are we about to enter an age where computers are better than humans at everything The answer to these questions linguist Emily M Bender and sociologist Alex Hanna make clear is no they wish LOL and definitely not This kind of thinking is a symptom of a phenomenon known as AI hype Hype looks and smells fishy It twists words and helps the rich get richer by justifying data theft motivating surveillance capitalism and devaluing human creativity in order to replace meaningful work with jobs that treat people like machines In *The AI Con* Bender and Hanna offer a sharp witty and wide ranging take down of AI hype across its many forms Bender and Hanna show you how to spot AI hype how to deconstruct it and how to expose the power grabs it aims to hide Armed with these tools you will be prepared to push back against AI hype at work as a consumer in the marketplace as a skeptical newsreader and as a citizen holding policymakers to account Together Bender and Hanna expose AI hype for what it is a mask for Big Tech's drive for profit with little concern for who it affects **Computer Vision -**
