Climate Change Solutions and Environmental Migration Anna Ginty, 2021-04-20 This book lifts the taboo on maladaptation a different driver of environmentally induced migration which shines a light on the negative consequences arising from the solutions to climate change adaptation and mitigation policies Through a systematic analysis and critique of existing mitigation and adaptation policies under the United Nations Framework Convention on Climate Change UNFCCC and international development community and supplemented by a small empirical study in Indonesia this book catalogues how maladaptation is manufactured under existing climate change solutions It posits that customary communities in general and women in particular are disproportionately affected by the dominant market driven logics that underscore current climate change solutions adopted by the UNFCCC The injustice of maladaptation is highlighted as multi faceted and explored using political economic social and ecological lenses and the concept of environmental reintegration is also explored as a possible solution to this issue Further possibilities are then presented in the Afterword as a combination of what the new post neoliberalism conjuncture could potentially look like This volume will be of great interest to students scholars and practitioners of climate change environmental policy environmental migration and displacement development studies I NGOs and civil society actors and activists more broadly **Acres, U.S.A.** ,2007 Meaning of Purpose Economy and Sustainable Development to Business Based on the Example of the Clothing Brand "Patagonia" Yannick Wichert, 2022-03-30 Academic Paper from the year 2021 in the subject Business economics Business Ethics Corporate Ethics grade 8 0 course Purpose Economy and sustainability language English abstract Since the rise in globalization and consumerism the world's leaders become increasingly aware of the negative consequences that are leading to a global climate crisis Nowadays almost everyone is aware that climate action becomes a necessity instead of an option in order to find a solution for this problem to save the planet One approach of how to reduce the carbon footprint is the right technique of waste management The most commonly known process is called Recycling which consists of collecting used materials reprocessing the waste material into a secondary material into its raw ingredients in order to be able to use this material for new product production In other words creating a new durable product that is made of waste is the ideal choice to support the environmentally friendly way of living and contributing to our planet The current times just make it a necessity for every business to act ethically and to have sustainable processes in place that contribute to the purpose economy It is relevant to change the primary goal of businesses from profit maximization no matter the costs to first having sustainable methods in place that protect humanity and future

generations This leads to the main purpose of this essay consisting of explaining the meaning of purpose economy and sustainable development to business In short the purpose economy consists of the idea of having a business which has a green economy that helps the planet instead of destroying it Further the sustainability consists of three main aspects Social Ecological and Economic and aims on acting in an ethical way with the purpose of not harming future generations This will be properly illustrated by the help of using a real case the US clothing brand Patagonia Patagonia is an US clothing brand that was founded by Yvon Chouinard in the year 1973 and is known for producing sustainable outdoor clothing Since the whole clothing industry contributes up to 10% of the pollution which worsens the climate crisis this company illustrates a perfect example of how to be a leading model for other companies of running a sustainable business
