The Routledge Companion to the Future of Management Research David Crowther, Shahla Seifi, 2023-09-14 The management of organisations continues to evolve as new priorities emerge and new approaches are developed. Thus it is clear that research into business and management will also continue to evolve. This will be in terms of both what is researched and in terms of the techniques and methods used to conduct research. Such development will continue into the future and this book highlights evolving areas. It also suggests new topics which are emerging and new techniques to conduct such research topics and techniques that will be of benefit to researchers. The unique focus on the future of research methods in management, the emergence of topics in contemporary management and sustainability research and practices such as sustainability and circular economy will set this volume apart. With coverage of new and emerging subjects in management studies such as sustainability, zero carbon, green market and circular economy and the international collaboration with contributors from all around the globe, this major interdisciplinary reference volume will be of interest and great value to researchers, academics and advanced students in the fields of business and management research and appropriate methodologies.

Micro-Apartments as an Emerging Real Estate Market Florentin Rack, 2017-02-27 Master's Thesis from the year 2016 in the subject Economics. Other grade 2.2 EBS European Business School gGmbH EBS Business School Real Estate Management Institute language English abstract The aim of this thesis is to have a look at micro apartments as an emerging housing market in Europe and find out if the concept is sustainable. The research is focused mainly on Germany and the United Kingdom as they are the two most important real estate markets in Europe. Chapter Two will give an overview of what micro apartments are, which demographic groups they target and how they ought to be designed. Chapter Three explains some of the trends that have led to the emergence of micro units followed by an overview of advantages and disadvantages. In Chapter Four, Chapter Five discusses two examples for recent micro unit developments in London and Berlin. Finally, Chapter Six covers a survey that was conducted in order to find out if the small space big city trade off is finding favour with Europeans. The chapter begins with an overview of the questionnaire and the demographic composition of the respondents followed by findings concerning the interest in and expectations for micro apartments and what amenities and features these flats should include. Finally, differences between the various demographic groups are identified and the European survey results are compared to previous findings from the United States.
