Brennan learned of the health and taste advantages of such trees and by emulating nature in his orchard and in his cider he has also enjoyed environmental and financial benefits None of this would be possible by following today's prevailing winds of apple cultivation In all fields our cultural perspective is limited by a parallel proclivity It's not just agriculture we all must fight tendencies toward specialization efficiency linear thought and predetermined growth We have cultivated those tendencies at the exclusion of nature's full range If *Uncultivated* is about faith in nature and the power it has to deliver us from our own mistakes then wild apple trees have already shown us the way The book for cider lovers New York Times Andy Brennan is a stubborn thoughtful original and his apple memoir is powered by inspiring verve and irreverence Loving apples or cider is not a prerequisite for loving this book All that is needed is the willingness to follow a vibrant narrative voice driven by the pursuit of dreams Alice Feiring author of *Naked Wine* and *For the Love of Wine*     **The Apple Situation in New York State, a Preliminary Report** George Frederick Warren, 1914     **The Connecticut Apple Industry** Irving Gilman Davis, Frederick Vail Waugh, Harold McCarthy, 1927     **Making the Best Apple Cider** Annie Proulx, 1983-01-11 Since 1973 Storey's Country Wisdom Bulletins have offered practical hands on instructions designed to help readers master dozens of country living skills quickly and easily There are now more than 170 titles in this series and their remarkable popularity reflects the common desire of country and city dwellers alike to cultivate personal independence in everyday life     *Craft Cider* Jeff Smith, 2015-08-20 In the spirit of *Shrubs* a beautiful hard cider cookbook from the nation's first cider pub Hard cider is far more than sweet apple juice with a kick It is the fastest growing alcoholic beverage on the market today After standing in the shadow of craft beer hard cider is enjoying a much overdue renaissance *Craft Cider* will uncover this unique beverage's history the current state of cider in the marketplace and recommend commercial ciders that represent the best in each style Whether you are a beginner or a seasoned brewer *Craft Cider* will be the go to book for all skill levels to learn new brewing techniques explore recipes and learn about the expansive history of this age old drink     **Processed Apple Products** Donald L. Downing, 2012-12-06 The objective of this book is to organize and document the technical analytical and practical aspects of present day apple processing No collected works have been published on processed apple products for more than thirty years During that time many changes have taken place in the apple processing industry There are fewer but larger plants processing apples from larger geographical areas because of advances in transportation and storage of fruit In addition sophisticated technical advances in the processing and packaging of apple products have also occurred This volume is designed to serve primarily as a reference book for those interested and involved in the processed apple industry An attempt has been made to provide a central source of historical currently practical and theoretical information on apple processing References have been cited to give credibility and assist those who may wish to read further on a particular subject If this book successfully summarizes present knowledge for readers and assists in the continued improvement of commercial fruit processing I will be pleased I would like to thank the many people in the apple industry who have requested
