Proceedings of the Future Technologies Conference (FTC) 2025, Volume 2 Kohei Arai, **Beyond Code** Daniel Plate, James Hutson, 2025-09-02 AI powered coding tools are revolutionizing software development transforming programming from a specialized skill into an accessible educational practice across disciplines This book investigates how tools such as Cursor AI GitHub Copilot and Replit s Ghostwriter are dismantling traditional barriers to entry for learners particularly those from non STEM backgrounds by enabling natural language code generation intelligent debugging and interactive project based learning Bridging the gap between theoretical instruction and practical application the book serves as both a guide and a critical framework for integrating generative AI into curricula It highlights how these tools expand the boundaries of programming education by supporting interdisciplinary applications from literary analysis to creative writing thereby making coding relevant and actionable for students in the humanities and beyond The book equips educators with the tools and strategies necessary to incorporate AI assisted programming into diverse academic contexts by offering lesson plans and adaptable project models This resource is essential for instructors seeking to demystify coding promote inclusivity in technical learning and reimagine the role of software literacy in the twenty first century classroom

Higher Ed: Tough Times in a World Divided Phillip L Beukema, 2025-04-02 It s no secret that the world of higher education in the U S is in trouble It faces image problems some of the worst financial pressures ever political turmoil in at least half the states in our country and much more Not all these challenges are of academia s own making but many are Too many silos deep roots in tradition and confused institutional missions all contribute to the state of affairs Chapter by chapter the author lays bare what he regards as the most

consequential matters confronting our higher education enterprise today These include everything from enrollment volatility and decline to the impact of a culture war on the DEI movement dim prospects for improved operational funding growing partisanship of university trustees and system boards the impacts of heavy reliance on contingent faculty increasingly unattractive and non competitive faculty salaries and institutional missions that have strayed or enlarged with unintended consequences As exhausting as this short list is it covers only part of the territory Colleges and universities of all stripes are affected from community and technical colleges to four year and graduate colleges and universities both private and public While there is no silver bullet at the ready the author outlines a rough blueprint for the kinds of initiatives and strategies needed to tackle the most consequential challenges we face today For many a school survival is truly at stake but achieving a turnaround is possible only if their leaders have the vision and courage to guide their institutions in the direction of life changing innovation and renewal
