What You Don't Know Cortnie Abercrombie, 2022-03-22 You are probably not aware because of their hidden nature but Artificial Intelligence systems are all around you affecting some of the biggest areas of your life jobs loans kids mental health relationships freedoms and even healthcare decisions that can determine if

you live or die As an executive working in AI at one of the largest most sophisticated tech companies on the planet Cortnie Abercrombie saw firsthand how the corporate executives and data science teams of the Fortune 500 think about and develop AI systems This gave her a unique perspective that would result in a calling to leave her job so she could reveal to the public the sobering realities behind AI without any constraints or Public Relations candy coating from corporate America In this book she makes it easy to understand how AI works and unveils what companies are doing with AI that can impact you the most Most importantly she offers practical advice on what you can do about it today and the change you should demand for the future This book drops the hype over exaggerations and big scientific terms and addresses the pressing questions that non insiders want answered How does AI work in words you don't need a PhD to understand How can AI affect my job replace me or prevent my hire Is AI involved in life or death decisions in healthcare Could my digital accounts or home network be hacked because of my AI based Smart TV coffeemaker or robot vacuum How does AI know so much about me what does it know and can it be used against me Can it manipulate people to do things they wouldn't normally Could AI help push my teen to self harm or suicide Is fake news a real thing How can AI affect my rights and liberties Does facial recognition play a part What can I do to protect myself my kids and my grandkids What should I demand from educators lawmakers and corporations to ensure AI is used in ways that are safe fair and responsible Is AI worth having What could AI do for us in the future It's time to understand what this AI hubbub is all about and what you're going to do about it because what you don't know about AI could hurt you

A Human's Guide to Machine Intelligence Kartik Hosanagar, 2020-03-10

A Wharton professor and tech entrepreneur examines how algorithms and artificial intelligence are starting to run every aspect of our lives and how we can shape the way they impact us Through the technology embedded in almost every major tech platform and every web enabled device algorithms and the artificial intelligence that underlies them make a staggering number of everyday decisions for us from what products we buy to where we decide to eat to how we consume our news to whom we date and how we find a job We've even delegated life and death decisions to algorithms decisions once made by doctors pilots and judges In his new book Kartik Hosanagar surveys the brave new world of algorithmic decision making and reveals the potentially dangerous biases they can give rise to as they increasingly run our lives He makes the compelling case that we need to arm ourselves with a better deeper more nuanced understanding of the phenomenon of algorithmic thinking And he gives us a route in pointing out that algorithms often think a lot like their creators that is like you and me Hosanagar draws on his experiences designing algorithms professionally as well as on history computer science and psychology to explore how algorithms work and why they occasionally go rogue what drives our trust in them and the many ramifications of algorithmic decision making He examines episodes like Microsoft's chatbot Tay which was designed to converse on social media like a teenage girl but instead turned sexist and racist the fatal accidents of self driving cars and even our own common and often frustrating experiences on services like Netflix and Amazon A Human's Guide to Machine Intelligence is

an entertaining and provocative look at one of the most important developments of our time and a practical user's guide to this first wave of practical artificial intelligence
