Chronogenetics The Inheritance Of Biological Time:

Chronogenetics ; the Inheritance of Biological Time Luigi Gedda, Gianni Brenci, 1978 Interaction and Identity Harmut B. Mokros, 2018-01-16 Scholarly interest in issues of self identity has exploded across disciplines within the humanities and social sciences in recent years Common to these concerns are the assumptions that self identity is not an a priori not given or fixed but created in the process of communication This also assumes that social institutions and values are produced and reproduced by individuals in interaction To capture the essential characteristics of a person requires analysis of how the social and psychological intersect in moments of communication Interaction and Identity contributes theoretically and empirically to contemporary scholarly interest in issues of identity Chapters and contributors to this stand alone volume include Part Whole Discovery Stages of Inquiry by Thomas Scheff Communication by Gregory Bateson Internal Muzak An Examination of Intrapersonal Relationships by Linda Lederman The Constitution of Identity as Gendered in Psychoanalytic Therapy Ideology and Interaction by Margaret Carr and The Reconstruction and Negotiation of Cultural Identities in the Age of Globalization by Getinet Belay The multiple disciplines of social research with contemporary interest in identity are ably reflected in Interaction and Identity The authors are drawn from eight disciplines anthropology communication information science linguistics philosophy psychoanalysis psychology and sociology This book will be invaluable to scholars in all these areas above all in communication research as such Encyclopedia of Communication Theory Stephen W. Littlejohn, Karen A. Foss, 2009-08-18 The Encyclopedia of Communication Theory provides students and researchers with a comprehensive two volume overview of contemporary communication theory Reference librarians report that students frequently approach them seeking a source that will provide them with a quick overview of a particular theory or theorist just enough to help them grasp the general concept or theory and its relation to the discipline as a whole Communication scholars and teachers also occasionally need a quick reference for theories Edited by the co authors of the best selling textbook on communication theory and drawing on the expertise of an advisory board of 10 international scholars and nearly 200 contributors from 10 countries this work finally provides such a resource More than 300 entries address topics related not only to paradigms traditions and schools but also metatheory methodology inquiry and applications and contexts Entries cover several orientations including psycho cognitive social interactional cybernetic and systems cultural critical feminist philosophical rhetorical semiotic linguistic and discursive and non Western Concepts relate to interpersonal communication groups and organizations and media and mass communication In sum this encyclopedia offers the student of communication a sense of the history development and current status of the discipline with an emphasis on the theories that comprise it *Genetics and Molecular Biology of Rhythms in Drosophila and Other Insects* Jeffrey C. Hall, 2003-02-07 Biological rhythms such as the sleep wake cycle or circadian clock are an intriguing aspect of biology This book describes and evaluates studies in this field and discusses the investigations done on rhythmic biology including genetic and molecular approaches used on other insect
