success starts here     Rethinking the North American Long Poem Ridvan Askin, Julius Greve, 2024-12-15 For centuries critics poets poet scholars and philosophers have either openly proclaimed or tacitly assumed the long poem as the highest expression of literary ambition and excellence Rethinking the North American Long Poem focuses on the North American variant of this notorious form notorious because of its often forbidding and difficult character particularly with respect to the dialectics of content and form aesthetics and politics matter and genre In nine essays and a contextual introduction the editors and contributors scrutinize seminal long poems by North American writers including Walt Whitman s Song of Myself Ezra Pound s The Cantos Muriel Rukeyser s The Book of the Dead and Charles Olson s The Maximus Poems They also explore recent efforts that have redefined or reopened the case of the long poem including Rachel Blau DuPlessis s Drafts M NourbeSe Philip s Zong and Claudia Rankine s Citizen Taking the categories of form matter and experiment as frames of conceptual reference the book examines the ways in which material and immaterial aspects of literary practice and the philosophically and politically inscribed duality of experience and experiment are negotiated in and by North American long poems from the nineteenth century to the present     Biohacked Brandon J. Weichert, 2023-05-16 When COVID 19 erupted from Wuhan China under mysterious circumstances the Communist Party of China covered up its existence for as long as possible It is now apparent that there is more to COVID than what the authorities wish for us to know Biohacked China s Race to Control Life details the decades long pursuit by the Chinese Communists to dominate the biotechnology industry to control the very building blocks of life on Earth to further their political control at home and their supremacy abroad More appalling than the egregious cover up that China s rulers engaged in with COVID 19 is the fact that Western scientists pharmaceutical companies and research labs have contributed to China s rapid and dangerous growth in the biotech industry so much so that China not the United States may become the seat of the biotechnology industry The Chinese leadership believes that biotechnology is a critical industry for the Communist Party to achieve its China Dream of becoming the world s dominant superpower by 2049 In China s biotech sector truly macabre practices are being developed from ambitious cloning programs to the creation of potential pathogens that China s military plans to use in specific genetic attacks against Beijing s growing list of political enemies To stop the threat author Brandon J Weichert proposes the world s nations create a comprehensive set of treaties for regulating biotechnology research and development Further Weichert calls for Washington to slow the transfer of advanced biotechnology knowledge and funding from the United States to China using means like the Foreign Corrupt Practices Act and the Committee on Foreign Investment in the United States CFIUS Unless an all of government and society approach is taken to curbing irresponsible biotech development in China then another deadlier COVID 19 like pandemic could be at hand     **Resources in Education** ,1988-10     **Resources in Education** ,1984
