The Fourth Industrial Revolution and the Labour Market Jon-Arild Johannessen,2023-09-15 The innovation economy is the driver for the development of the Fourth Industrial Revolution and consequently there is a growing focus on innovation in general and technological innovation in particular In this context there is much to suggest that it is the triple impact of artificial intelligence big data and 5G and 6G networks that will go beyond the limits of existing competence This book is about the new competence that is emerging in the wake of artificial intelligence and intelligent robots It explains how these two technologies are completely fundamental to what is known as the Fourth Industrial Revolution The author argues that artificial intelligence will promote automation which will reduce wages rather than increase unemployment statistics The book posits that when the utility value of technology and the rate of dissemination of technology is high people who have the necessary competence will both future proof their jobs in the labour market and also be among the highest paid workers in the new economy that is emerging from the innovation

economy Further by making education more compatible with new technology will enable graduates to access more secure and better paid jobs and all behavioural fields related to new technology will flourish because they can be used in many contexts to steer people s behaviour in certain directions through the integration of big data and artificial intelligence The book employs the following scholarly methods conceptual generalization scenario based thinking and historical economic methodology thus it will be of particular benefit to academic scholars researchers and graduate students who are concerned with the impact of the fourth industrial revolution on the labour market A Guide to Commercial Artificial Intelligence Wendy B. Rauch-Hindin,1988 Rauch Hindin discusses how artifical intelligence AI differs from traditional programs and the strategies and problems of bringing AI into an organization She explains how systems with specialized problem solving expertise work and how to build one using AI application development tools She also covers a number of real world AI applications in industry business and finance science medicine and engineering AI programming languages the different types of computer hardware that can run AI systems and the underlying concepts and potential of state of the art expert systems for automated programming ISBN 0 13 368770 8 pbk 28 95 *Dr. Mandell's Ultimate Personal Computer Desk Reference* Steven L. Mandell,1993 Here is the ultimate reference book on personal computers for everyone from neophyte to experienced users The book contains valuable information and practical advice on over 300 topics A simplified unique cross reference system allows the reader to quickly find answers to questions and solutions to problems Hawaii International Conference on System Sciences, 23rd IEEE Computer Society Press,Training Publications Limited,1990 **1982 European Conference on Artificial Intelligence** ,1982 **Applied Artificial Intelligence Reporter** ,1985 Who's who in Artificial Intelligence Alan Kernoff,1986 *ICS Applied Artificial Intelligence Reporter* ,1985 *The Seybold Report on Professional Computing* ,1984 *The Proceedings of the 1999 Summer Computer Simulation Conference* Mohammad S.
