Making Sense of Culture Norhayati Zakaria, 2019-05-29 This book lies within two interdisciplinary fields that should be bridged cross cultural management and international human resource management The consequences of globalization lead to a more extensive recruitment process of global talents to fit the different work structures and competitive work environment of tomorrow The emergence of self initiated expatriates SIEs further intensify the challenges faced by multinational organizations because people are searching for better career prospects and they are willing to re locate in order to obtain competitive salary or compensation packages With the emergence of SIEs multinational corporations need to acknowledge the influence of culture on management practices because the expatriates will bring their own cultural baggage and uniqueness to the company s doorsteps By integrating both fields this book provides a valuable understanding in order to educate SIEs on the richness of cultural behaviors Indeed the complexities of human behaviours

opens up the window of opportunities to recognize that we are all human beings with unique characteristics personality and attitudes It is until and when we equally acknowledge that culture is an essence of humankind and that culture continues to shape people with a magical touch of diversity and uniqueness only then will the global world greet people inclusively by embracing tolerance appreciation and happiness Culture has a paramount impact on how leaders manage their colleagues and teams in the workplace One s attitudes values beliefs and perceptions all matter when people work with culturally diverse colleagues Cultural differences cannot be ignored as a work structure that thrives only in a monoculture environment is hardly in existence for multinational corporation of today Instead the multi cultured environment takes priority with the soaring number of demands for global talents and workforces that need to be recruited It is clearly established in the field of international human resources that there are increasing trends and phenomenon of burgeoning SIEs in newly occupied cosmopolitan cities in the world such as Dubai Qatar Jeddah Kuala Lumpur Hong Kong Shanghai Tokyo and many others At the end one key question matters for the journey of cultural sense making to begin What is it like to experience the forces and effects of culture in the workplace when one is an expatriate

This book is written for those who have worked with teams before with less than optimal results and for those who believe in teams but don't know where to begin.
