Virtual Services in the Health Sciences Library Amanda R. Scull, 2022-05-15 Selected as a 2025 Doody's Core Title, virtual services have been part of health sciences libraries for a long time in various forms, including the provision of reference and research services via email or chat, availability of online instruction, access to electronic materials, and the curation of virtual research guides. The situation increased visibility of existing services, making users more aware of what was available and revealing gaps and needed improvements in virtual
