Day In The Life Of A Colonial Doctor:

A Day in the Life of a Colonial Doctor Laurie Krebs, 2004 Describes a day in the life of a doctor in colonial Philadelphia where he was trained common ailments and how he treated them and ways in which he tried to improve conditions for women slaves and others **American Book Publishing Record**, 2003 **Course of Study Monographs...** Denver Public Schools, 1926 **Medicine and Colonialism** Poonam Bala, 2015-10-06 Focusing on India and South Africa during the nineteenth and twentieth centuries the essays in this collection address power and enforced modernity as applied to medicine Clashes between traditional methods of healing and the practices brought in by colonizers are explored across both territories **Social Science, Grades One, Two, Three, Four, Five, and Six, Elementary School** Denver Public Schools, 1926 Children's Books in Print R R Bowker Publishing, Bowker, 1999-12 *American Druggist and Pharmaceutical Record*, 1896 **Medicine and Morality in Haiti** Paul Brodwin, 1996-09-13 Morality and medicine are inextricably intertwined in rural Haiti and both are shaped by the different local religious traditions Christian and Vodoun as well as by biomedical and folk medical practices When people fall ill they seek treatment not only from Western doctors but also from herbalists religious healers and midwives Dr Brodwin examines the situational logic the pragmatic decisions that guide people in making choices when they are faced with illness He also explains the moral issues that arise in a society where suffering is associated with guilt but where different sometimes conflicting ethical systems coexist Moreover he shows how in the crisis of illness people rework religious identities and are forced to address fundamental social and political problems **Book Review Index Cumulation** Dana Ferguson, 2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year Making and Unmaking Public Health in Africa Ruth J. Prince, Rebecca Marsland, 2013-11-15 Africa has emerged as a prime arena of global health interventions that focus on particular diseases and health emergencies These are framed increasingly in terms of international concerns about security human rights and humanitarian crisis This presents a stark contrast to the 1960s and 70s when many newly independent African governments pursued the vision of public health for all of comprehensive health care services directed by the state with support from foreign donors These initiatives often failed undermined by international politics structural adjustment and neoliberal policies and by African states themselves Yet their traces remain in contemporary expectations of and yearnings for a more robust public health This volume explores how medical professionals and patients government officials and ordinary citizens approach questions of public health as they navigate contemporary landscapes of NGOs and transnational

projects faltering state services and expanding privatization Its contributors analyze the relations between the public and the private providers of public health from the state to new global biopolitical formations of political institutions markets human populations and health Tensions and ambiguities animate these complex relationships suggesting that the question of what public health actually is in Africa cannot be taken for granted Offering historical and ethnographic analyses the volume develops an anthropology of public health in Africa Contributors Hannah Brown P Wenzel Geissler Murray Last Rebecca Marsland Lotte Meinert Benson A Mulemi Ruth J Prince No mi Tousignant and Susan Reynolds Whyte For All of Humanity Martha Few, 2015-10-22 Smallpox measles and typhus The scourges of lethal disease as threatening in colonial Mesoamerica as in other parts of the world called for widespread efforts and enlightened attitudes to battle the centuries old killers of children and adults Even before edicts from Spain crossed the Atlantic colonial elites oftentimes embraced medical experimentation and reform in the name of the public good believing it was their moral responsibility to apply medical innovations to cure and prevent disease Their efforts included the first inoculations and vaccinations against smallpox new strategies to protect families and communities from typhus and measles and medical interventions into pregnancy and childbirth For All of Humanity examines the first public health campaigns in Guatemala southern Mexico and Central America in the eighteenth and early nineteenth centuries Martha Few pays close attention to Indigenous Mesoamerican medical cultures which not only influenced the shape and scope of those regional campaigns but also affected the broader New World medical cultures The author reconstructs a rich and complex picture of the ways colonial doctors surgeons Indigenous healers midwives priests government officials and ordinary people engaged in efforts to prevent and control epidemic disease Few s analysis weaves medical history and ethnohistory with social cultural and intellectual history She uses prescriptive texts medical correspondence and legal documents to provide rich ethnographic descriptions of Mesoamerican medical cultures their practitioners and regional pharmacopeia that came into contact with colonial medicine at times violently during public health campaigns **The St. Louis Medical Review** ,1905 **Journal of the Medical Society of New Jersey** Medical Society of New Jersey, 1929 **Nationalizing the Body** Projit Bihari Mukharji, 2011-01-01 This book seeks to move emphasis away from the over riding importance given to the state in existing studies of western medicine in India and locates medical practice within its cultural social and professional milieus Based on Bengali doctors writings this book examines how various medical problems challenges and debates were understood and interpreted within overlapping contexts of social identities and politics on the one hand and their function within a largely unregulated medical market on the other **Children's Books in Print, 2007** ,2006 School Library Journal ,2004 **The Medical Journal of Australia** ,1962 *Bradshaw's Through Route Overland Guide to India, and Colonial Handbook* ,1884 **Forthcoming Books** Rose Arny, 2003-04 *Public Opinion* ,1870
