De Imperio A Nacia N Crecimiento Y Atraso Económico En España 1780-1930 Alianza Universidad:

Industrialización y desarrollo económico en Andalucía Andrés Sánchez Picón, 2013-12-12 El fracaso de la industrialización en Andalucía ha sido uno de los argumentos reiterados en las síntesis que se difunden de la historia económica andaluza. Aunque la realidad actual da cuenta de la debilidad del tejido industrial andaluz, hay juicios diferentes respecto a las etapas y el contenido de la trayectoria manufacturera en el territorio de la actual Comunidad Autónoma. La interpretación clásica, alumbrada por Jordi Nadal, hace casi cuarenta años dio cuenta de una cierta anticipación andaluza dentro del proceso industrializador español del siglo XIX. El rea malagueño y algunos núcleos del litoral mediterráneo y las industrias típicas de la primera industrialización: siderurgia, textil y minería, serían las protagonistas de una expansión efímera entre los años 1830 y 1850. A mitad de los noventa, Antonio Parejo, a cuya memoria se dedica esta publicación, perteneciente a la colección Cuadernos de Andalucía en la Historia Contemporánea, cuestiona tras la publicación de unas estimaciones de la evolución de la producción industrial, el papel protagonista de esos fogonazos fabriles del siglo XIX. Desde entonces, la atención sobre la historia industrial andaluza se ha ampliado al siglo XX y al estudio de las industrias más vinculadas a las condiciones naturales de Andalucía. En este Cuaderno se aborda un balance general que sirve como prembulo a diferentes aproximaciones sectoriales que intentan recoger una nueva mirada sobre temas como la minería, la transición energética y el impacto sobre el medio ambiente, la constitución de un sistema de transportes, el despliegue de la industria agroalimentaria y el papel de los empresarios desde la perspectiva novedosa de su conexión en redes.

La guerra de Napoleón en España

Emilio La Parra López, 2010 Los estudios recopilados en este libro ofrecen una visión actualizada e innovadora sobre algunos de los aspectos más polémicos en torno a la Guerra de la Independencia española. A lo largo de sus páginas, reconocidos especialistas reflexionan sobre las razones y circunstancias del conflicto, la imagen que los contemporáneos españoles o extranjeros se forjaron de la guerra y las consecuencias humanas y económicas que tuvo la sublevación contra Napoleón en 1808. La pluralidad de perspectivas y el rigor del análisis enriquecen el debate histórico y permiten extraer interesantes conclusiones sobre la época actual como el proceso de adaptación de la identidad española a los nacionalismos modernos.

Grupos de presión y reformas arancelarias en el régimen liberal, 1820-1870 Enrique Montañés Primicia, 2009 Esta obra se centra en el análisis de la cuestión arancelaria durante el período de consolidación del régimen liberal en España. El libro estudia los conflictos que surgieron entre los empresarios debido a la regulación del comercio exterior, así como las coaliciones integradas por grupos económicos y las élites políticas liberales y su papel en el marco arancelario en el siglo XIX.

El mercado interior en la consolidación del capitalismo español, 1890-1914 Juan Martín Fernández, 2005 El crecimiento económico durante el período. La especialización productiva. Distribución espacial de la actividad económica. La actuación empresarial. El control del mercado interior como alternativa a las carencias competitivas. La dinámica capital nacional, capital extranjero.
