De Opkomst Der Abbasiden In Chorasán Studies In Islamic History:

The Muslim World a Historical Survey Part 1 the Age of the Caliphs Bertold Spuler, Arabs and Iranians in the Islamic Conquest Narrative Scott Savran, 2017-09-08 Arabs and Iranians in the Islamic Conquest Narrative analyzes how early Muslim historians merged the pre Islamic histories of the Arab and Iranian peoples into a didactic narrative culminating with the Arab conquest of Iran This book provides an in depth examination of Islamic historical accounts of the encounters between representatives of these two peoples that took place in the centuries prior to the coming of Islam By doing this it uncovers anachronistic projections of dynamic identity and political discourses within the contemporaneous Islamic world It shows how the formulaic placement of such embellishment within the context of the narrative served to justify the Arabs rise to power whilst also explaining the fall of the Iranian Sasanian empire The objective of this book is not simply to mine Islamic historical chronicles for the factual data they contain about the pre Islamic period but rather to understand how the authors of these works thought about this era By investigating the intersection between early Islamic memory identity construction and power discourses this book will benefit researchers and students of Islamic history and literature and Middle Eastern Studies **The Political and Social History of Khurasan Under Abbasid Rule, 747-820** Elton L. Daniel, 1979

Greater Khorasan Rocco Rante, 2015-03-10 The modern sense of Greater Khorasan today corresponds to a territory which not only comprises the region in the east of Iran but also beyond Iranian frontiers a part of Afghanistan and Turkmenistan In the past this entity was simply defined as Khorasan In the Sassanid era Khorasan defined the Eastern lands In the Islamic era this term was again taken up in the same sense it previously enjoyed The Arab sources of the first centuries all mention the eastern regions under the same toponym Khorasan Khorasan was the gateway used by Alexander the Great to go into Bactria and India and inversely that through which the Seljuks and Mongols entered Iran In a diachronic context Khorasan was a transit zone a passage a crossroads which above all in the medieval period saw the creation of different commercial routes leading to the north towards India to the west and into China In this framework archaeological researches will be the guiding principle which will help us to take stock of a material culture which as its history is very diversified They also offer valuable elements on commercial links between the principal towns of Khorasan This book will provide the opportunity to better know the most recent elements of the principal constitutive sites of this geographical and political entity *The Places Where Men Pray Together* Paul Wheatley, 2001 What makes a city an economic political and cultural center In *The Places Where Men Pray Together* Paul Wheatley draws on two decades of astonishingly wide ranging research to demonstrate that Islamic cities are defined by function rather than form by what they do rather than what they are Focusing on the roles of cities during the first four centuries of Islamic expansion Wheatley explores interconnected cultural historical economic political and religious factors to provide the clearest and most extensively documented portrait of early Islamic urban centers available to date Building on the tenth century geographer al Maqdisi's writings on urban centers of the Islamic world

buttressed by extensive comparative material from roadbooks topographies histories adab literatures and gazetteers of the time Wheatley identifies the main functions of different Islamic urban centers Chapters on each of the thirteen centers that al Maqdisi identified ranging from the Atlantic to the Indus and from the Caspian to the Sudan form the heart of this book In each case Wheatley shows how specific agglomeration and accessibility factors combined to make every city functionally distinct as a creator of effective space He also demonstrates that far from revolutionizing every aspect of life in these cities the adoption of Islam often affected the development of these cities less than previously existing local traditions The Places Where Men Pray Together is a monumental work that will speak to scholars and readers across a broad variety of disciplines from historians anthropologists and sociologists to religious historians archaeologists and geographers *De Opkomst Der Abbasiden in Chorasán* Gerlof van Vloten,1977 **History of the Islamic Peoples** Carl Brockelmann,1960 *The Age of the Caliphs* Bertold Spuler,2024-09-02 **History of the Islamic Peoples** Carl Grockelmann,1960 *Entre mémoire et pouvoir* Antoine Borrut,2010-11-11 Cet ouvrage entend d montrer qu une solide culture de l critique de l histoire existait dans la Syrie du 2e 8e si cle et propose de nouvelles approches m thodologiques afin d offrir un acc s vers cette historiographie perdue tiraill e entre m moire et oubli En tudiant la fabrique des h ros omeyyades ou des mythes d origines abbassides cette tude s efforce de mettre au jour les significations successives donn es l histoire syrienne et d identifier les diff rentes strates d critiques et de r critiques de l histoire au cours des premiers si cles de l islam L ensemble de ces l ments conduit proposer une histoire du sens de l espace syrien articul e autour de la th matique du pouvoir qui donne une profonde coh rence la p riode par del la c sure dynastique de 132 750 This book intends to demonstrate that a robust culture of historical writing existed in 2nd 8th century Syria and to offer new methodological approaches to access this now lost history torn between memory and oblivion By studying the making of Umayyad heroes or Abbasid origins myths this study aims to reveal the successive meanings granted to Syrian history and to identify the various layers of historical writing and rewriting during the first centuries of Islam Taken together these elements make possible a history of the meaning of the very space of Syria articulated around power and its expression which grants a clear coherence to the period extending well beyond the dynastic caesura of 132 750 **Books in Series** ,1985 Vols for 1980 issued in three parts Series Authors and Titles *Shi'ism* Etan Kohlberg,2016-12-05 This volume brings together seventeen articles reflecting the wide range of scholarly interest in early Shi ism over the past half century All major branches of Shi ism are covered Some studies are historical in nature whether dealing with specific events or offering a broad historical perspective Others focus on literary issues on the development of doctrine or on the relations between the Shi a and the non Shi i world The studies have been selected because they represent the best of current scholarship or are classic works with continuing significance six appear for the first time in English translation The editor s introduction reviews the historiography of the field and highlights directions and trends in research and is followed by a bibliography of key further reading Bulletin of reprints ,1978 *The Muslim World: The age of the*
