**Designing a New World** Janny Venema, 2011 The purpose of this book is to provide more insight into Kiliaen van Rensselaer as a driving force behind the peopling of New Netherland and thus to better understand his motivation for colonization in the hope that this may contribute to a broader knowledge of the development of New Netherland P 13 The Corporation as a Protagonist in Global History, c. 1550-1750, 2018-12-10 William A Pettigrew and David Veevers put forward a new interpretation of the role Europe's overseas corporations played in early modern global history recasting them from vehicles of national expansion to significant forces of global integration Across the Mediterranean Atlantic Indian Ocean and Pacific corporations provided a truly global framework for facilitating the circulation movement and exchange between and amongst European and non European communities bringing them directly into dialogue often for the first time Usually understood as imperial or colonial commercial enterprises The Corporation as a Protagonist in Global History reveals the unique global sociology of overseas corporations to provide a new global history in which non Europeans emerged as key stakeholders in European overseas enterprises in the early modern world Contributors include Michael D Bennett Aske Laursen Brock Liam D Haydon Lisa Hellman Leonard Hodges Emily Mann Simon Mills Chris Nierstrasz Edgar Pereira Edmond Smith Haig Smith and Anna Winterbottom **De VOC en de Beurs** H. J. den Heijer, 2002 In 1602 the VOC Dutch East India Company was granted sole rights to trade with Asia This company was the largest trading firm in the world during the seventeenth and eighteenth centuries and its activities in goods such as spices silk porcelain and tea led to an era of unprecedented prosperity in The Netherlands The VOC had a permanent impact on navigation language science and the arts and on daily life The company introduced Europe to products such as pepper nutmeg cloves porcelain and of course tea and coffee What is less well known is that the VOC was the world's first publically traded company and helped create the basis for another part of many people's daily lives investing on the stock exchange Published to commemorate the 400th anniversary of the VOC this work tells the story of how the company invented permanent share capital and laid the foundations for the Amsterdam stock exchange It describes the VOC's share issue the first shareholders and the way shares were traded on the exchange and reveals a surprising number of elements familiar to modern day investors It also explains how share trading spread from Amsterdam to the rest of the world This accessible book contains charming anecdotes and many fascinating illustrations **Aanwinsten van de Centrale Bibliotheek (Queteletfonds)** Bibliothèque centrale (Fonds Quetelet), 2003 A History of Banks Mehmet Baha Karan, Wim Westerman, Jacob Wijngaard, 2024-06-24 This book provides an overview of monetary history from the perspectives of the financial intermediaries who shaped it Starting from the Knights Templar and ending with contemporary national banking champions it presents several case studies that demonstrate how banks from around the world have revolutionized both their operations and the markets they operate in The text holds a plea for democratic and transnational financial intermediation systems It appeals to students and scholars of

Stephan P. Dinkgreve,      *At Home on the World Markets* Joost Jonker, Keetie Sluyterman, 2001-03-01 The Dutch economy  
has relied on trade for centuries During the seventeenth century the Netherlands experienced a Golden Age built largely on  
commercial enterprise and trade continues to be the golden link in the supply chain from producers to consumers Yet we  
know very little about the business of trade and the people involved in it What was the nature of their work and how did it  
evolve through the ages In the lavishly illustrated *At Home on the World Markets* Joost Jonker and Keetie Sluyterman look at  
mercantile dynasties such as the Trips and the Van Eeghens and companies such as the famous Dutch East Indian Company  
VOC and the modern trading company Hagemeyer that have been largely unstudied They describe the evolution of a unique  
economic sector that occupies a key position in the supply chain from producers to consumers      *Kroniek*, 2003      *The*

and material culture against the backdrop of the geopolitics of the early modern world The seventeenth century witnessed a  
great flourishing of Dutch trade and culture Over the course of the first half of the century the northern Netherlands secured  
independence from the Spanish crown and the nascent republic sought to establish its might in global trade often by way of  
diplomatic relations with the Ottoman Empire and other Muslim powers Central to the political and cultural identity of the  
Dutch Republic were curious foreign goods the Dutch called rarities *Rarities of These Lands* explores how these rarities were
