MiG-17/19 Aces of the Vietnam War István Toperczer, 2016-10-20 At the beginning of the Vietnam War the Vietnam People s Air Force VPAF were equipped with slow old Korean War generation fighters a combination of MiG 17s and MiG 19s types that should have offered little opposition to the cutting edge fighter bombers such as the F 4 Phantom II F 105 Thunderchief and the F 8 Crusader Yet when the USAF and US Navy unleashed their aircraft on North Vietnam in 1965 the inexperienced pilots of the VPAF were able to shatter the illusion of US air superiority Taking advantage of their jet s unequalled low speed maneuverability small size and powerful cannon armament they were able to take the fight to their missile guided opponents with a number of Vietnamese pilots racking up ace scores Packed with information previously unavailable in the west and only recently released from archives in Vietnam this is the first major analysis of the exploits of Vietnamese pilots in the David and Goliath contest with the US over the skies of Vietnam

supported by a universal network of agents supplying spares and technical assistance They were used for racing and record breaking flights of extreme courage and endurance and small airline activities This new book outlines the early days of the de Havilland Aircraft Company and studies the evolution of each of the Moth family of light airplanes and their engines which took place between 1925 and 1939 **The Tiger Moth Story** Alan Bramson,2005 Previous ed Great Britain Airlife 1982
