De Koonings Bicycle Artists And Writers In The Hamptons:

De Kooning's Bicycle Robert Long, 2005-11-16 Some of the 20th century's most important artists and writers lived and worked on the east end of Long Island years before it assumed its alternate identity as the Hamptons. The homes they made there and the effect on their work is the subject of these searching lyrical vignettes. *de Kooning* Mark Stevens, Annalyn Swan, 2006-04-04 Winner of the Pulitzer Prize and National Book Critics Award Circle Award. An authoritative and brilliant exploration of the art life and world of an American master. Willem de Kooning is one of the most important artists of the twentieth century, a true painter's painter whose protean work continues to inspire many artists. In the thirties and forties along with Arshile Gorky and Jackson Pollock he became a key figure in the revolutionary American movement of abstract expressionism. Of all the painters in that group he worked the longest and was the most prolific, creating powerful, startling images well into the 1980s. The first major biography of de Kooning captures both the life and work of this complex, romantic figure in American culture. Ten years in the making and based on previously unseen letters and documents as well as on hundreds of interviews, this is a fresh, richly detailed and masterful portrait. The young de Kooning overcame an unstable, impoverished and often violent early family life to enter the Academie in Rotterdam where he learned both classic art and guild techniques. Arriving in New York as a stowaway from Holland in 1926, he underwent a long struggle to become a painter and an American, developing a passionate friendship with his fellow immigrant Arshile Gorky who was both a mentor and an inspiration. During the Depression, de Kooning emerged as a central figure in the bohemian world of downtown New York, surviving by doing commercial work and painting murals for the WPA. His first show at the Egan Gallery in 1948 was a revelation. Soon the critics Harold Rosenberg and Thomas Hess were championing his work, and de Kooning took his place as the charismatic leader of the New York school just as American art began to dominate the international scene. Dashing, handsome and treated like a movie star on the streets of downtown New York, de Kooning had a tumultuous marriage to Elaine de Kooning herself, a fascinating character of the period. At the height of his fame, he spent his days painting powerful abstractions and intense, disturbing pictures of the female figure and his nights living on the edge, drinking, womanizing and talking at the Cedar bar with such friends as Franz Kline and Frank O'Hara. By the 1960s, exhausted by the feverish art world, he retreated to the Springs on Long Island where he painted an extraordinary series of lush pastorals. In the 1980s, as he slowly declined into what was almost certainly Alzheimer's, he created a vast body of haunting and ethereal late work.

Along the Lines Chris Ware, Mark Pascale, 2017-01-01 Romanian-born American artist Saul Steinberg (1914-1999) won international acclaim for his inventive, wry representations of the postwar age. His work appeared on the covers and interiors of the New Yorker for nearly six decades, and his drawings, collages, prints, paintings and sculptures have been exhibited in galleries and museums around the world. With essays by cartoonist Chris Ware and curator Mark Pascale, this book traces Steinberg's imagery as it evolved over the full scope of his career during which he refused to distinguish between high and

low art The 60 works included range from the witty black ink takes on his newly adopted land of 1940s America to the watercolor paintings he made as a mature artist in the late 1980s Cartooning Ivan Brunetti,2011-03-29 Provides lessons on the art of cartooning along with information on terminology tools techniques and theory **Running on Empty** John A. Krauss,2015 This image

rich essay offers a radical rethinking of the abstract painter Willem de Kooning by one of the greatest American art critics. Many have written about de Kooning's startling canvases of monstrous women, but none have approached them this way. In prose as energetic as her subject, Rosalind Krauss demonstrates how de Kooning could never stop reworking the same subject. Deploying one telling image after another, she shows that from the early days of his career, de Kooning nearly always 1) worked with a tripartite vertical structure, 2) projected his own figure and point of view as the male artist into the painting, and 3) was compelled to produce the female figure with legs splayed obscenely or knees projected into the viewer's space. In practically everything he made, "Woman" is always hidden in plain sight, even in paintings of highways, boats, and landscapes. How could we have missed this?
