From the Earth to the Moon and 'Round the Moon (月へ行く) Jules Verne, 2011-03-15 From the Earth to the Moon French De la Terre la Lune 1865 is a humorous science fantasy novel by Jules Verne and is one of the earliest entries in that genre It tells the story of the president of a post American Civil War gun club in Baltimore his rival a Philadelphia maker of armor and a Frenchman who builds an enormous sky facing Columbiad space gun and launch themselves in a projectile spaceship from it to a Moon landing The story is also notable in that Verne attempted to do some rough calculations as to the requirements for the cannon and considering the comparative lack of any data on the subject at the time some of his figures are surprisingly close to reality However his scenario turned out to be impractical for safe manned space travel since a much longer muzzle would have been required to reach escape velocity while limiting acceleration to survivable limits for the passengers Includes a Biography of the Author

feasibility of the project Stone's Hill in Tampa Town Florida is chosen as the site for the cannon's construction The Gun Club travels there and starts the construction of the Columbiad cannon which requires the excavation of a 900 foot deep 270 m and 60 foot wide 18 m circular hole which is made in the nick of time but a surprise awaits Barbicane Michel Ardan a French adventurer plans to travel aboard the projectile During a meeting between Ardan the Gun Club and the inhabitants of Florida Nicholl appears and challenges Barbicane to a duel The duel is stopped when Ardan having been warned by J T Maston secretary of the Gun Club meets the rivals in the forest where they have agreed to duel Meanwhile Barbicane finds the solution to the problem of surviving the incredible acceleration that the explosion would cause Ardan suggests that Barbicane and Nicholl travel with him in the projectile and the proposition is accepted In the end the projectile is successfully launched but the destinies of the three astronauts are left inconclusive The sequel Around the Moon deals with what happens to the three men in their travel from the Earth to the Moon
