*De Lage Landen van 1500 tot 1780*, 1991      *De Lage Landen van 1500 tot 1780* Ivo Schöffer, 1988      **The Familial State** Julia Adams, 2005 The 17th century was called the Dutch Golden Age Over the course of 80 years the tiny United Provinces of the Netherlands overthrew Spanish rule and became Europe's dominant power In this book Julia Adams explores the role that Holland's great families played in this dramatic history      *De Lage Landen van 1500 tot 1780* Ivo Schöffer, 1983      **The Rise of the Amsterdam Market and Information Exchange** Clé Lesger, 2016-12-05 Most scholars agree that during the sixteenth century the centre of European international trade shifted from Antwerp to Amsterdam presaging the economic rise of the Dutch Republic in the following century Traditionally this shift has been accepted as the natural consequence of a dynamic and progressive city such as Amsterdam taking advantage of expanding commercial opportunities at the expense of a more conservative rival hampered by outmoded medieval practices Yet whilst this theory is widely accepted is it accurate In this groundbreaking study Cl Lesger argues that the shift of commercial power from Antwerp to Amsterdam was by no means inevitable and that the highly specialized economy of the Low Countries was more than capable of adapting to the changing needs of international trade It was only when the Dutch Revolt and military campaigns literally divided the Low Countries into separate states that the existing stable spatial economy and port system fell apart and a restructuring was needed Within this process of restructuring the port of Amsterdam acquired a function radically different to the one it had prior to the division of the Netherlands Before the Revolt it had served as the northern outpost in a gateway system centred on Antwerp but with access of that port now denied to the new republic Amsterdam developed as the main centre for Dutch shipping trade and crucially the exchange of information Drawing on a wide variety of neglected archival collections including those of the Bank of Amsterdam this study not only addresses specific historical questions concerning the commercial life of the Low Countries but through the case study of Amsterdam also explores wider issues of early modern European commercial trade and economic development      *Ottoman Empire and European Theatre V* Michael Hüttler, Hans Ernst Weidinger, 2019-05-22 The book series Ottomania researches cultural transfers between the Ottoman Empire and Europe with the performing arts as its focus The fifth volume of the sub series Ottoman Empire and European Theatre focuses on The Turkish Subject in Ballet and Dance from the seventeenth century to the time of Christoph W Gluck 1714 1787 The Turkish theme was a popular topic on European ballet stages throughout the seventeenth and eighteenth centuries and most influential choreographers had Turkish ballets in their repertoire Taking as its departure point Ch W Gluck and Gasparo Angiolini 1741 1803 successful composer and choreographer of ballets at the French theatre in Vienna this publication discusses the topic from a historical perspective presents new findings and introduces the latest scholarly achievements of the research field Contributions by Emre Arac Bruce Alan Brown David Chataignier Sibylle Dahms Vera Grund Bert Gstettner Bent Holm Michael Hüttler Evren Kutlay Dora Kiss Laura Naudeix Strother Purdy Katalin Rumpler
