## De Marges Van De Macht:

**De arrogantie van de macht / druk 1** N. Chomsky, 2004      **Constellations of Value** Christoph Jedan, 2013 In Western public discourse there is a long tradition of opposing secular and religious values In consequence religion has been increasingly excluded from the public domain and relegated to the realm of personal motivation From different perspectives this present collection of essays shows that religion still has an important role to play in the public domain In exploring the possibility of a rapprochement between religious and secular values the book s contributions offer important insights for ongoing debates on the question whether Western and particularly European democracies have entered a post secular phase Series Theorizing the Postsecular International Studies in Religion Politics and Society Vol 1      **Neo-Calvinism and the French Revolution** James Eglinton, George Harinck, 2014-08-28 The French Revolution was the scene of much intellectual and social upheaval Its impact touched a wide range of subjects the relationship of the church to the state social relationships science literature fashion philosophy and theology Although the French Revolution s momentum was felt across Europe and North America it met a particularly interesting response in the Netherlands at that time the scene of a burgeoning neo Calvinist movement In that context the likes of Groen van Prinsterer Abraham Kuyper and Herman Bavinck responded to the French Revolution s ideals and influence in a variety of intellectual and practical ways This book approaches that Dutch response from a range of historical and theological perspectives and in so doing explores the relationship between the French Revolution and the development of neo Calvinism Beginning with historical portraits of Bavinck and Kuyper in relation to the Revolution the perspectives offered also include amongst others the place of multilingualism in neo Calvinism and the Revolution neo Calvinist and Revolutionary approaches to fashion a dialogue between Kuyperian theology and Kieslowski s Three Colours trilogy and a contemporary neo Calvinist critique of French la cit This book forms part of a wider Project neo Calvinism supported by the Theologische Universiteit Kampen and the VU University Amsterdam      Balance of Power and Norm Hierarchy: Franco-British Diplomacy after the Peace of Utrecht Frederik Dhondt, 2015-05-19 Balance of Power and Norm Hierarchy Franco British Diplomacy after the Peace of Utrecht offers a detailed study of French and British diplomacy in the age of Walpole and Fleury After Louis XIV s decease European international relations were dominated by the collaboration between James Stanhope and Guillaume Dubois Their alliance focused on the amendment and enlargement of the peace treaties of Utrecht Rastatt and Baden In depth analysis of vast archival material uncovers the practical legal arguments used between Hampton Court and Versailles Balance of Power or Tranquillity of Europe were in fact metaphors for the predominance of treaty law even over the most fundamental municipal norms An implacable logic of norm hierarchy allowed to consolidate peace in Europe      Academic Interests and Catholic Confessionalisation Bruno Boute, 2010-06-14 Delving into the tangled involvement of academic institutions with the benefice system in the Early Modern Period this book focuses on an anomaly medieval privileges that provided academics at Louvain

the self declared storm troopers of Catholic and dynastic restoration in the Netherlands with access to the Post Tridentine clerical job market Despite their anachronistic flavour in a regional job market characterised by its openness for graduates these privileges were considered vital for the survival of the university and of Catholicism This conundrum addressed via the analysis of the privileges and the conflicts they provoked in Louvain colleges local church administrations Brussels secretariats and Roman palaces during the archducal period 1588 1598 1621 1625 leads to refreshing explorations of a fabric of Academia in the making and of the multiple worlds of early modern Catholicism The Equestrian Officers of the Roman Imperial Army Devijver, 2024-04-02 The papers offered here by Hubert Devijver are the narrative counterpart to his *Prosopographia Militiarum Equestrium* They bring to life the careers the social and geographical origins the tasks and status symbols of these men as well as the monuments on which our knowledge of them is based The Equestrian Officers and their Monuments is an original contribution for this volume Enhanced by the indices this book helps us understand the social class and military role of Rome s equestrian officers *Verguisd en vergeten (3 vols.)* Harry A.
