De Definition Of Art:

The De-Definition of Art Harold Rosenberg, 1983-06-15 Like the great German critic Walter Benjamin Rosenberg is a master of dialectics whose sense of art is continuous with his sense of society and also like Benjamin bears no taint of compromised out of work radicalism Instead his radicalism is very much at work enabling him to spot and skewer fallacies false logic and the camouflaged nudity that is a large part of the art emperor's new wardrobe The De definition of Art detects with great sensitivity the forces that are deflecting and pressuring art in the direction of esthetic and moral nullity Jack Kroll Newsweek

Definitions of Art Stephen Davies, 2018-08-06 In the last thirty years work in analytic philosophy of art has flourished and it has given rise to considerably controversy Stephen Davies describes and analyzes the definition of art as it has been discussed in Anglo American philosophy during this period and in the process introduces his own perspective on ways in which we should reorient our thinking Davies conceives of the debate as revealing two basic conflicting approaches the functional and the procedural to the questions of whether art can be defined and if so how As the author sees it the functionalist believes that an object is a work of art only if it performs a particular function usually that of providing a rewarding aesthetic experience By contrast the proceduralist believes that something is an artwork only if it has been created according to certain rules and procedures Davies attempts to demonstrate the fruitfulness of viewing the debate in terms of this framework and he develops new arguments against both points of view although he is more critical of functional than of procedural definitions Because it has generated so much of the recent literature Davies starts his analysis with a discussion of Morris Weitz's seminal paper *The Role of Theory in Aesthetics* He goes on to examine other important works by Arthur Danto George Dickie and Ben Tilghman and develops in his critiques original arguments on such matters of the artificiality of artworks and the relevance of artists intentions

The De-definition of Art Harold Rosenberg, 1972 **The Sense of Art** Ralph A. Smith, 2014-10-29 Ralph A Smith provides a theory of aesthetic education that addresses the need to revitalize the capacity for genuine judgment in society reaffirm the ideal of excellence in culture and reorder our thoughts about teaching the arts in schools The book presents an image of the curriculum as itinerary preparing the young to traverse the world of art with adroitness and sensitivity

Great Works of Art and what Makes Them Great Fred Wellington Ruckstull, 1925 This is a book of combat in which little quarter will be given to certain tendencies in the art world and the pessimistic cynicism and childish hypocrisy by which they are pushed forward Ruckstull makes his point with 175 illustrations from the art world
