On Matricide Amber Jacobs, 2007-09-04 Despite advances in feminism the law of the father remains the dominant model of Western psychological and cultural analysis and the law of the mother continues to exist as an underdeveloped and marginal concept In her radical rereading of the Greek myth Oresteia Amber Jacobs hopes to rectify the occlusion of the mother and reinforce her role as an active agent in the laws that determine and reinforce our cultural organization According to Greek myth Metis Athena's mother was Zeus's first wife Zeus swallowed Metis to prevent her from bearing children who would overthrow him Nevertheless Metis bore Zeus a child Athena who sprang forth fully formed from his head In Aeschylus's Oresteia Athena's motherless status functions as a crucial justification for absolving Orestes of the crime of matricide In his defense of Orestes Zeus argues that the father is more important than the mother using Athena's motherless birth as an example Conducting a close reading of critical works on Aeschylus's text Jacobs reveals that psychoanalytic theorists have unwittingly reproduced the denial of Metis in their own critiques This repression which can be found in the work of Sigmund Freud and Melanie Klein as well as in the work of more contemporary theorists such as Andre Green and Luce Irigaray has resulted in both an incomplete analysis of Oresteia and an inability to account for the fantasies and unconscious processes that fall outside the oedipal patricidal paradigm By bringing the story of Athena's mother Metis to

the forefront Jacobs challenges the primacy of the Oedipus myth in Western culture and psychoanalysis and introduces a bold new theory of matricide and maternal law She finds that the Metis myth exists in cryptic forms within Aeschylus's text uncovering what she terms the latent content of the Oresteian myth and argues that the occlusion of the law of the mother is proof of the patriarchal structures underlying our contemporary social and psychic realities Jacobs's work not only provides new insight into the Oresteian trilogy but also advances a postpatriarchal model of the symbolic order that has strong ramifications for psychoanalysis feminism and theories of representation as well as for clinical practice and epistemology

Flaubert, Beckett, NDiaye Andrew Asibong, Aude Campmas, 2017-01-23 Gustave Flaubert Samuel Beckett and Marie NDiaye can be considered as visionaries of a peculiarly radical form of failure their protagonists and texts alike sliding inexorably into unmanageable states of paradox incompleteness and disintegration What are the implications of these authors' experiments in splitting and negativity experiments which seem to indulge the most cynical aspects of nihilism whilst at the same time grappling with the very foundations of politicized and psychic truth In this unusual edited volume of comparative analyses Andrew Asibong and Aude Campmas bring together ten provocative and illuminating essays each of which approaches the various failures of the bizarre trio of canonical francophone writers along three principal axes of investigation the aesthetic the emotional and the political *The Dead Father* Lila J. Kalinich, Stuart W. Taylor, 2008-10-27 Inspired by

André Green's landmark paper this book brings together some of the world's finest intellects and provides a framework to allow psychoanalysts to begin thinking about the difficulties of a generation without a solid anchor in the Father **Reading Architecture and Culture** Adam Sharr, 2012-11-12 Architecture displays the values involved in its inhabitation construction procurement and design It traces the thinking of the individuals who have participated in it their relationships and their involvement in the cultures where they lived and worked In this way buildings their details and the documents used to make them can be read closely for cultural insights Introducing the idea of reading buildings as cultural artefacts this book presents perceptive readings by eminent writers which demonstrate the power of this approach The chapters show that close readings of architecture and its materials can test commonplace assumptions help architects to appreciate the contexts in which they work and indicate ways to think more astutely about design The readings collected in this innovative and accessible book address buildings specifications and photographs They range in time from the fifteenth century examining the only surviving drawing made by Leon Battista Alberti to the recent past projects completed by Norman Foster in 2006 and Herzog and de Meuron in 2008 They range geographically from France to Puerto Rico to Kazakhstan and they range in fame from buildings celebrated by critics to house extensions and motorway service areas Taken together these essays demonstrate important research methods which yield powerful insights for designers critics and historians and lessons for students **Imposter Syndrome and The 'As-If' Personality in Analytical Psychology** Susan E. Schwartz, 2023-09-26

This insightful book explores the as if personality through the lens of Jungian analytical psychology illuminating how the

same forces that can disturb personal development relationally socially and culturally are equally an impetus toward expressing and relating with one's more complete self. The book describes persons expressing an as if personality as facing a conundrum around whether to hide or expose the truth of who they are. It describes the analytic container as a place of growth from that place affecting person and culture self and other. Using a myriad of clinical examples across a range of cultures contexts and personal experiences the author describes people who are moving through feelings of not belonging sexual addiction ageing the cultural influence of social media the role of the father and body image challenges. All these issues reveal the valuable recognition of the unconscious a hallmark of Jungian analytical psychology incorporates the dissociated others into selfhood. The theories of French psychoanalysts Andre Green on absence and the negative Julia Kristeva on abjection French philosopher Jacques Derrida on Narcissus and Echo and American philosopher Judith Butler on precarity expand the Jungian analytical thought to reflect the multiplicity of the psyche. Using understandable language to interweave various psychoanalytical and philosophical frameworks Imposter Syndrome and the As If Personality in Analytical Psychology. The Fragility of Self is both accessible to general readers and highly relevant to professional analysts therapists clinicians and social workers. **The Scandinavian Psychoanalytic Review** ,2006 *Contemporary Psychoanalysis* ,2009

Barrie, Hook, and Peter Pan Elisa T. Di Biase, Alfonso Muñoz Corcuera, 2012-11-15 Peter Pan was born over a century ago. There is something doubly contradictory in this phrase that although true is also the reason why this book has been released. We are talking about the boy who will never grow up and the fact that he is celebrating his hundredth birthday should provoke some surprise. At the same time he is such a powerful icon that it is also true that he seems to have been there floating in our culture reappearing in its images since time immemorial much farther back than the early twentieth century. This book shows that although he considered dying to be an awfully big adventure Peter Pan is on his one hundredth birthday more alive than ever. And our prediction is that he will accompany our culture as long as it survives. Like all great myths Peter will continue bursting through the window of our texts leading us to other worlds so that when we least expect it we will hear his cry emanate from a dark ocean. This book in a sincere tribute intends to be both a compilation and a precedent by inspiring a deeper look into its image we hope to influence the life of this character so dear and yet so mysterious and seductive. Peter Pan ha cumplido un siglo de vida. Hay algo doblemente contradictorio en esta frase que por lo demás es cierta y es el motivo por el cual este libro ha visto la luz. Estamos hablando del niño que nunca crece y el hecho de que celebre su cumpleaños no mero cien puede provocarnos cierta extrañeza. Por otro lado se trata de un icono tan poderoso que también es verdad que parece haber estado ahí flotando en nuestra cultura resurgiendo en sus imágenes desde tiempos inmemoriales mucho más lejanos que los albores del siglo XX. Este libro muestra que a pesar de que considere que morir podrá resultar una aventura extraordinaria Peter Pan está a sus cien años más vivo que nunca. Y el panorama pinta en efecto para una vida que acompaña a nuestra cultura mientras ésta sobreviva. Igual que sucede con todos los grandes mitos Peter seguirá

irrumpiendo a través de la ventana de nuestros textos guiándonos a otros mundos de tal manera que cuando menos lo esperemos escucharemos su grito emanar de un oculto oscuro Este libro en un sincero homenaje pretende ser compilación y precedente y mediante la provocación mediante la motivación de la profundización en su figura incidir en la trayectoria de la vida de este personaje tan entrañable y a la vez tan misterioso y seductor

Harvesting Free Association Marita Torsti-Hagman, 2003 This book is about the fundamentals of free association Working from a large amount of clinical material it enables us to see how the problems of the symbolization process are created in the minds of both the analysand and the analyst Harvesting Free Association gives detailed attention to the phenomena of hysteria obsessional neurosis and the death drive Marita Torsti Hagman also investigates the symbolizations of femininity including the kinds of psychosomatic disturbances that the child bearing and nursing mother suffer from Conceptualizing the central role of inner genitality as a catalyst for the integration of femininity she analyzes the conflicts penis envy produces when there is insufficient potential in the woman's mind for binding it This part of the book formulates a theory on the fundamental significance of hallucination during the fetal stage both for the formation of the deepest unconscious and for the functioning of primary repression Marita Torsti Hagman argues that drive is energy and therefore that theory formation necessitates a language of charge and movement In contemporary psychoanalysis it is no longer sufficient to be satisfied with the understanding of the content of representations The author has a long standing interest in what psychoanalysis is what Freud meant it to become and what it has been made into The analyst's ability and inability to remain in touch with his own unconscious and to use it in his analytic work as an interpretative process have been central foci of attention in the writing of this book

Understanding Dissidence and Controversy in the History of Psychoanalysis Martin S. Bergmann, 2004 Dissidence and controversy have been an integral part of the history of psychoanalysis at times causing pain disappointment and shame to its adherents The seemingly endless dissent has evoked derision and thrown doubt on the validity of the findings of psychoanalysis Now for the first time a number of distinguished psychoanalysts have met to try and understand this phenomenon This volume the collected proceedings of a single landmark conference is a major contribution to the understanding not only of the history and nature of psychoanalysis but also to the history of the ideas that shaped the twentieth century essay by Martin S Bergmann which brings together the significant ideas of major dissidents in the psychoanalytic movement Bergmann's discussion of dissidence in a historical sequence results in a panoramic view of the interactions between mainstream psychoanalysis and its discontents that provides a comprehensive look at the movement across several decades The second part of the book is comprised of written responses to Dr Bergmann's essay by Andre Green Otto Kernberg Anton Kris Harold Blum Jill Savage Scharff Robert Wallerstein and Elisabeth Young Bruehl analysts named above as well as William Grossman Peter Neubauer Henry Nunberg and Mortimer Ostow that touches on such wide ranging topics as the reasons for vehement disagreement among psychoanalytic schools how dissidence should be taught in psychoanalytic training the question of what

is at the heart of psychoanalysis the libido as pleasure seeking and object seeking the limitations of psychoanalysis the relationship between psychoanalysis and drug therapy and psychoanalysis as science and as ideology This singular volume illuminates issues that are some of the most troublesome and urgent among leading psychoanalysts today *Telling Stories* Jane Tormey, Gillian Whiteley, 2009 Trespassing disciplines and binding together practice and theory *Telling Stories* Visual Practice Theories and Narrative crosses strange territories and occupies liminal spaces It addresses a contemporary preoccupation with narrative and narration which is being played out across the arts humanities and beyond and considers how visual and performative encounters contribute to thinking How might they tell theories *Telling Stories* results from a series of symposia held at Loughborough University School of Art and Design in 2007 The programme included papers screenings and performances and was based around the convenors TM shared interests in Peggy Phelan TM s notion of performative writing TM and in the examination of inter disciplinary forms of narrative and counter narrative It specifically focused on three aspects experimental forms of Theories and Criticism Objects and Narrative and the particular form of the Cinematic Essay and explored how the performative move could also be said to apply to forms of contemporary art practice to what photography film objects wish to say This resulting edited collection presents contemporary making and writing practices as multi faceted interdisciplinary and trans medial and is indicative of an attitude that sets out to encounter the world its social conditions its global perspectives and the nature of aesthetic discussion that is no longer confined by formalism *Benefitting by Design* Chemba Raghavan, Arlene E. Edwards, Kim Marie Vaz, 2008 The presence of women of color within the practical applications of social science research findings is severely limited since spaces where and when women of color enter the arenas of research methodology research question and intervention design and knowledge generation is often that of the other *Benefitting by Design* addresses this limitation It does so by locating the experience and knowledge of women of color as its central theme with sections of the text referring to emerging trends that attend to the need for greater representation of women of color in research and academic settings A key theme is the dislodging of currently accepted positions for the experience of women of color as marginalized and subsumed under normative modes of examination to central positions in areas of social science research and clinical practice This is in response to the typical assumption of the need to fix TM women of color be it based on their immigration status sexual orientation race culture class or spiritual practice *Benefitting By Design* attends to the salient contexts of the lives of women of color from an emic perspective by providing models for addressing the limitations that result from exclusion and strategies for centering the experiential knowledge of women of color in social science research and practice that is designed for their benefit
