Dead White Males David Williamson, 2000 **David Williamson's Dead White Males** Lewis Mitchell, Bruce Isaacs, 2004 Dead White Males David Williamson (sceneggiatore.), 1995 *Dead White Males* Ann Diamond, 2000 Who is Vera A Utall Why has she entwined celebrity Nick Maggot and legendary literary genius Orville Goner in her sexual web Soft boiled private eye and hairdresser David Dennings is hired to track the vanished siren Through a hallucinatory labyrinth only Ann Diamond could have created the trail leads him to the nefarious Dead White Males Raymond Chandler and Philip K Dick meet Virginia Woolf in this unconventional whodunit in which Dennings very life depends on finding the solution that lies buried within an elusive master s thesis Will he make it before the hourglass runs out Critical Comment If you re tired of pretentious Canadian literary experiences and want a good story that keeps you laughing Ann Diamond s *Dead White Males* is a heartening change James Moran July 2002 The plot moves quickly between Canada and South America and between reality and whatever else is out there so that the only thing the reader can do is let go and be taken along laughing all the way Patty Osborne GEIST spring 2001 *Dead White Males* is nutty paranoid messy and a great deal of fun A must for Ann Diamond fans The Montreal Gazette Whether they fight their battles in the fantastic or realistic world Diamond s women seem to use their involvement with brutish insensitive men as acts of defiance Mary Frances Hill Books in Canada *Dead White Males* is a paean to postmodernism with its elaborate pastiche of texts narrators hallucinatory fragments dream visions and echoic episodes Canadian Literature 2003 **Soccer, the Left, & the Farce of Multiculturalism** John Pepple, 2010-06-09 Soccer is the world s most popular sport which makes it the most multicultural of sports From this it should follow that the multicultural movement here in America would strongly support soccer But instead of embracing the sport of the Other the movement has ignored sports and while younger multiculturalists may be soccer fans the older ones have generally clung to America s own sports Soccer in America has ended up being a sport for those in the middle or even on the right rather than for those on the left The people who show up at soccer games include fraternity jocks sorority girls and members of the military none of whom are thought of as multiculturalist or open minded by those on the left This book is about sports in America and the rest of the world The many topics it explores include soccer s place in the world a comparison of the sports environments in America and England a critical examination of America s sports the history of prejudice against soccer in America and the failure of many of America s leftists to overcome that prejudice *Genre Fission* Marleen S. Barr, 1998-10 What do Amsterdam prostitutes NASA astronauts cross dressing texts and Star Trek characters have in common In *Genre Fission* Marleen Barr wittily and eccentrically revitalizes cultural and literary theory by examining the points where such vastly different categories meet converge and reemerge as something new *Shakespeare Survey: Volume 58, Writing about Shakespeare* Peter Holland, 2005-11-03 Published with academic researchers and graduate students in mind this volume of the Shakespeare Survey presents a number of contributions on the theme of the play

Macbeth The Everyday Life of Memorials Andrew M. Shanken, 2022-10-04 A timely study erudite and exciting about the ordinary and oftentimes unseen lives of memorials Memorials are commonly studied as part of the commemorative infrastructure of modern society Just as often they are understood as sites of political contestation where people battle over the meaning of events But most of the time they are neither Instead they take their rest as ordinary objects part of the street furniture of urban life Most memorials are turned on only on special days such as Memorial Day or at heated moments as in August 2017 when the Robert E Lee monument in Charlottesville was overtaken by a political maelstrom The rest of the time they are turned off This book is about the everyday life of memorials It explores their relationship to the pulses of daily life their meaning within this quotidian context and their place within the development of modern cities Through Andrew Shanken's close historical readings of memorials both well known and obscure two distinct strands of scholarship are thus brought together the study of the everyday and memory studies From the introduction of modern memorials in the wake of the French Revolution through the recent destruction of Confederate monuments memorials have oscillated between the everyday and the not everyday In fact memorials have been implicated in the very structure of these categories The Everyday Life of Memorials explores how memorials end up where they are grow invisible fight with traffic get moved are assembled into memorial zones and are drawn anew into commemorations and political maelstroms that their original sponsors never could have imagined Finally exploring how people behave at memorials and what memorials ask of people reveals just how strange the commemorative infrastructure of modernity is **The Humanities, the Social Sciences and the University** Harry Redner, 2023-05-31 The Humanities the Social Sciences and the University is an intellectual history of research in the humanities and social sciences It scrutinizes the priorities values objectives and publishing agendas of the modern university in order to assess the institutional pressures on research in major disciplines such as literature history sociology and economics It argues that all these disciplines are currently experiencing a deep malaise though to different degrees due to loss of faith in the Enlightenment project which entailed the pursuit of knowledge through reason Extreme scepticism promoted since the 1970s by French Theory which regards knowledge as an instrument of power is a major factor in this disorientation Overall the book concludes that though universities have grown stronger wealthier and more powerful in the last century the quality and seriousness of the research they typically produce are weaker and intellectually less important and the institution is in danger of losing its way An accessible and compelling read this book will appeal to scholars of sociology education and intellectual history with interests in higher education policy and academic life **Dead White Males** Grace Scud, 1995 **The End of Education** Neil Postman, 1996-10-29 Postman suggests that the current crisis in our educational system derives from its failure to supply students with a translucent unifying narrative like those that inspired earlier generations Instead today's schools promote the false gods of economic utility consumerism or ethnic separatism and resentment What alternative strategies can we use to instill our children with a sense of global citizenship

healthy intellectual skepticism respect of America's traditions and appreciation of its diversity In answering this question The End of Education restores meaning and common sense to the arena in which they are most urgently needed Informal and clear Postman's ideas about education are appealingly fresh New York Times Book Review **Minutes of the ... Annual Meeting** Central Baptist Association (Miss.),1871 Multiculturalism and American Democracy Symposium on Science, Reason, and Modern Democracy,1998 The fourteen essays in this volume address the pros and cons of multiculturalism and explore its relationship with liberal democracy **Promised Lands** David M. Wrobel,2002 Whether seen as a land of opportunity or as paradise lost the American West took shape in the nation's imagination with the help of those who wrote about it but two groups who did much to shape that perception are often overlooked today Promoters trying to lure settlers and investors to the West insisted that the frontier had already been tamed that the only frontiers remaining were those of opportunity Through posters pamphlets newspaper articles and other printed pieces these boosters literally imagined places into existence by depicting backwater areas as settled culturally developed regions where newcomers would find none of the hardships associated with frontier life Quick on their heels some of the West's original settlers had begun publishing their reminiscences in books and periodicals and banding together in pioneer societies to sustain their conception of frontier heritage Their selective memory focused on the savage wilderness they had tamed exaggerating the past every bit as much as promoters exaggerated the present Although they are generally seen today as unscrupulous charlatans and tellers of tall tales David Wrobel reveals that these promoters and reminiscers were more significant than their detractors have suggested By exploring the vast literature produced by these individuals from the end of the Civil War through the 1920s he clarifies the pivotal impact of their works on our vision of both the historic and mythic West In examining their role in forging both sense of place within the West and the nation's sense of the West as a place Wrobel shows that these works were vital to the process of identity formation among westerners themselves and to the construction of a West in the national imagination Wrobel also sheds light on the often elitist sometimes racist legacies of both groups through their characterizations of Native Americans African Americans Mexican Americans and Asian Americans In the era Wrobel examines promoters painted the future of each western place as if it were already present while the old timers preserved the past as if it were still present But as he also demonstrates that West has not really changed much promoters still tout its promise while old timers still try to preserve their selective memories Even relatively recent western residents still tap into the region's mythic pioneer heritage as they form their attachments to place Promised Lands shows us that the West may well move into the twenty first century but our images of it are forever rooted in the nineteenth **The Poultry Item** ,1914 **The Nasby Letters** David Ross Locke,1893 **Proceedings of the Medical Association of the Isthmian Canal Zone** Medical Association of the Isthmian Canal Zone,1918 Everybody's Poultry Magazine ,1920 **The American Annual Cyclopedia and Register of Important Events of the Year ...** ,1899 Meanjin ,1997
