Dead Wrong A Death Row Lawyer Speaks Out Against Capital Punishment:

Dead Wrong Michael Mello, 1997 Winner of the 1998 Award for Excellence in Indexing American Society of Indexers and H W Wilson Company *Dialogues on the Ethics of Capital Punishment* Dale Jacquette, 2009-02-04 One in the series New Dialogues in Philosophy edited by the author himself Dale Jacquette presents a fictional dialogue over a three day period on the ethical complexities of capital punishment Jacquette moves his readers from outlining basic issues in matters of life and death to questions of justice and compassion with a concluding dialogue on the conditional and unconditional right to life Jacquette s characters talk plainly and thoughtfully about the death penalty and readers are left to determine for themselves how best to think about the morality of putting people to death *The Biblical Truth about America's Death Penalty* Dale S. Recinella, 2015-12-01 While secular support for capital punishment in America seems to be waning religious conservatives particularly in the Bible belt remain staunch advocates of the death penalty citing biblical law and practice to defend government sanctioned killing Dale S Recinella compares biblical teaching about the death penalty including such passages as eye for eye tooth for tooth life for life with the nation s current system of capital punishment and offers persuasive arguments for a faith based moratorium on and eventual abolition of executions Framing his careful and incisive analysis as a legal brief to those who believe the Bible mandates the ultimate punishment the author addresses two critical areas of inquiry what do the scriptures tell us about who is deserving of death and who has the authority to kill and what do they tell us about the required standards for execution and the plight of victims families Recinella s examination of the Hebrew Torah or Christian Pentateuch and the Talmud reveals that the biblical death penalty was not a simple system of swift retribution but a complex and practical set of laws that guided capital courts established under the Sanhedrin His scrutiny of these texts the Christian doctrine of atonement and Romans 13 in the Pauline Epistles draws parallels between the traditional biblical arguments used in favor of capital punishment and those used as the basis for pro slavery positions in the nineteenth century Demonstrating that both approaches are unsubstantiated in biblical terms Recinella debunks the accepted religious reasoning for support of the death penalty and shows instead that the Bible s strict conditions for sanctioning execution are at odds with the arbitrary ways in which capital punishment is administered in the United States He provides convincing evidence that a sentence of death in today s criminal justice system in fact fails to meet both the Bible s exacting procedural requirements and its strict limitations on judicial authority By providing actual scriptural language and foundation to counter the position that biblical truth justifies a pro death penalty stance this thoughtful solidly researched and well reasoned work will give pause to religious fundamentalists and challenge them to rethink their strongly held views on capital punishment

Capital Punishment C. Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution

prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes
