## **Deadline How Premier Organizations Win The Race Against Time:**

**Deadline!** Dan Carrison, 2003 At 9 00 on a summer morning the phone rang in the kitchen of a comfortable California home The homeowner answered in his usual chipper tone Hello We have your son Within hours the FBI had deployed a team of agents working in a literal life and death race against time Like any organization facing a crucial deadline the Bureau not only had to think and move quickly it had to stay focused in the face of enormous pressure and frustrating obstacles Though seldom with such high stakes companies rise to the challenge of tough deadlines every day For example when Conoco pooled its resources in a monumental relief effort in the aftermath of a perfect storm it used exemplary crisis management strategy while helping residents of hundreds of devastated homes all in one unforgettable weekend of activity And when Boeing designed and delivered its new state of the art 777 aircraft in record time for its demanding customer United Airlines the achievement required a profound change in Boeing's own management philosophy These stories and others exemplify how organizations facing critical high pressure deadlines require unique skills and creative original strategies Because without proper deadline management techniques making the impossible happen is well impossible Deadline! Dan Carrison, 2003

**Agile with Guts** Nicolas Gouy,2014-04-07 The first principle of the Agile Manifesto is about valuable software Value is subjective it s the perceived benefit we get from something Imagine you are working for an IT department in a large organization You want to deliver valuable software with iterative delivery There might be dozens of stakeholders with dozens of definition of value How do you ensure you are both building the right thing and building the thing right Suppose you are increasing your productivity you might be building the wrong product faster This book describes how a large organization uses techniques to focus on the right product and to deeply anchor the idea that less output can deliver more outcomes
