is surely not a tempest in a teapot While it is fair to acknowledge that sincere Christians appear on both sides of the debate it
is not correct to deduce from that literal six day creation is an issue on which there can be a reasonable brotherly
disagreement Latitudinarians who point out that there has been no consensus on this issue in the orthodox Christian church
should realize that there has been no consensus in the orthodox church on the doctrine of justification either but that fact
does not suggest we may hold a latitudinarian view of it We unswerving advocates of literal six day creation are not
contending that those who disagree with us are not Christians We are however contending that they do not believe in a
Christian manner on this issue Subtitled A Presuppositional Defense of Literal Six Day Creation this symposium by thirteen
authors is a direct frontal assault on all latitudinarian and otherwise waffling views of Biblical Creation It explodes the
Framework Hypothesis so dear to the hearts of many respectability hungry Calvinists and it throws down the gauntlet to all
who believe they can maintain a consistent view of Biblical infallibility while abandoning literal six day creation It is a must

An author original theory of how 7 day creation evolved before Moses of Moses and after Moses It begins with 7 day Flood
into the 7 day Marduk and then Moses deciding to combine 7 day geology with 7 day Earth axis precession not realizing that
precession rate would not have existed as the same math before the asteroid impact of the Flood The origin of where Moses
got his Genesis Bible 7 day Creation It is his Egyptian education of an axis precession of Gregorian 400 year Seth cycles to
