Lukach, William Rubin [et al].* , 1982 **Italian Modernism** Mario Moroni, Luca Somigli, 2004-01-01 Italian Modernism was written in response to the need for an historiographic and theoretical reconsideration of the concepts of Decadentismo and the avant garde within the Italian critical tradition Focussing on the confrontation between these concepts and the broader notion of international modernism the essays in this important

collection seek to understand this complex phase of literary and artistic practices as a response to the epistemes of philosophical and scientific modernity at the end of the nineteenth century and in the first three decades of the twentieth. Intellectually provocative, this collection is the first attempt in the field of Italian Studies at a comprehensive account of Italian literary modernism. Each contributor documents how previous critical categories employed to account for the literary, artistic, and cultural experiences of the period have provided only partial and inadequate descriptions, preventing a fuller understanding of the complexities and the interrelations among the cultural phenomena of the time.

Rethinking Art Between the Wars Hans Dam Christensen, Øystein Hjort, Niels Marup Jensen, 2001. In the interwar period, art revealed itself as part of the social and ideological order. The work of art became a point of intersection for the modern, unstable, and ambiguous world. Works of art produced in these decades reflect a range of discourses on power and subjectivity. They contribute to the foundation of the post-war development of aesthetic pluralism and point out the socially conditioned framings of the Fine Arts. During the last decades, research in the field of interwar art has reworked and reconceptualised existing notions on the period. This book offers four new approaches which also contribute to reflections on methodological questions regarding the changes in the discipline of Art History since the early 1970s. The articles discuss topics such as Le Corbusier's connection with the French fascist movement, the position of women in the avant-garde movement, Giorgio de Chirico's play with kitsch and avant-garde practices, and the semiotics of the surrealist image.

The Case of Giorgio de Chirico Jerry Caruana, 2007. A scholarly and well-researched text presenting two essays intended to clarify de Chirico's life and its many ups and downs. Filled with thoughtful analysis and thought-provoking sentiments, *The Case of Giorgio de Chirico* will provide art lovers with new insights and answers on this enigmatic artist and his career.

Geometry of Shadows Giorgio De Chirico, 2019. Gathered from early twentieth-century Italian magazines, manuscripts, correspondence, television recordings, and ephemeral art volumes, *Geometry of Shadows* is the first comprehensive collection of Giorgio de Chirico's Italian poetry, with award-winning poet Stefania Heim's translations presented alongside the Italian originals. De Chirico's poems are as essential and as mysterious as his paintings.

Jhumpa Lahiri: A multifaceted artist who lived in multiple languages, de Chirico was just becoming famous in France for the paintings that inspired surrealism when he returned to Italy in 1916 to enlist for the First World War. Quickly determined unfit for the front line, de Chirico was assigned to desk duty and began to write poems in his native language. Translating his iconic visual imagination into literary form, *Geometry of Shadows* is a gorgeous document celebrating the elasticity and innate potential of language by an artist ever in pursuit of deeper understanding.

German Post-Expressionism : The Art of the Great Disorder 1918-1924 , German Post-Expressionism is the first study to reconstruct historically the evolution of *Die neue Sachlichkeit*, the slogan coined as a designation for the Post-Expressionist figural art that developed throughout Germany following the failed revolution of 1919. Rather than starting with the moment this Post-Expressionist movement was christened with a slogan in 1923, Crockett investigates the sources and

precepts of Post Expressionism beginning with the anti Expressionist stance of Dada in 1918 and the loss of faith in Expressionism on the part of some of its chief supporters during 1919 20 Painting and Sculpture in Europe, 1880-1940 George Heard Hamilton,1993-01-01 This new edition of a book that offers the best available grounding in its huge subject as the Sunday Times called it includes color plates and a revised and expanded bibliography Professor Hamilton traces the origins and growth of modern art assessing the intrinsic qualities of individual works and describing the social forces in play The result is an authoritative guide through the forest of artistic labels Impressionism and Expressionism Symbolism Cubism Constructivism Surrealism etc and to the achievements of Degas and Cezanne Ensor and Munch Matisse and Kandinsky Picasso Braque and Epstein Mondrian Dali Modigliani Utrillo and Chagall Klee Henry Moore and many other artists in a revolutionary age **Metaphysical Art: The De Chirico Journals No.17/18 2018** Giorgio and Isa de Chirico Foundation Rome,2020-01-30 This book is dedicated to recent scholarship on Giorgio de Chirico s art This periodical published by the Fondazione Giorgio e Isa de Chirico is dedicated to recent scholarship on Giorgio de Chirico s art with contributions by internationally recognized academics as well as a new generation of researchers This edition 17 18 published in 2018 includes writings and manuscripts by de Chirico several of which translated into English for the first time and essays by authors on historical theoretical and technical aspects of de Chirico s art **Italian Art in the 20th Century** Alberto Asor Rosa,1989 Third volume to appear in conjunction with series of exhibitions of twentieth century art organised by the Royal Academy of Arts London **Theatrical Costume, Masks, Make-up and Wigs** Sidney Jackson Jowers,John P.
