De ingenieros al Che Néstor Kohan, 2008      **Marx and Freud in Latin America** Bruno Bosteels, 2012-08-21 This book assesses the untimely relevance of Marx and Freud for Latin America thinkers alien to the region who became an inspiration to its beleaguered activists intellectuals writers and artists during times of political and cultural oppression Bruno Bosteels presents ten case studies arguing that art and literature the novel poetry theatre film more than any militant tract or theoretical essay can give us a glimpse into Marxism and psychoanalysis not so much as sciences of history or of the unconscious respectively but rather as two intricately related modes of understanding the formation of subjectivity

**Intellectuals and Communist Culture** Adriana Petra, 2022-08-16 This book investigates a central chapter in the history of 20th century intellectualism the commitment to the communist ideal and the Soviet Union Focusing on Argentina whose communist party was among the most important in Latin America Petra engages with the current literature on Western communism in order to conduct an exhaustive study of the intellectuals cultural organizations publications and debates within Argentine communism in the decades following World War II Based on rigorous archival research from diverse sources Petra's book distances itself from existing teleological visions and institutional approaches to the communist world offering instead a complex framework in which multiple contexts scales and actors frame the larger problem the intellectual commitment to a political project that brooked no dissent **Intellectuals and Communist Culture** also addresses the emergence of Peronism a crucial movement in Argentine political life to this very day thus offering an important chapter on Latin American political and intellectual history and an invaluable contribution to the global history of the international communist movement      *Communist Psychology in Argentina* Luciano Nicolás García, 2022-10-18 This book presents an intellectual

history of the reception of Soviet psychology in Argentina as part of the communist scientific culture promoted by the Argentine Communist Party This research reconstructs the material conditions the political conjunctures and disciplinary disputes that allowed the international circulation of the works and ideas of Ivan Pavlov and Lev Vygotsky and analyzes how pavlovism and vygotskianism impacted psychology psychiatry and the wider mental health field in Argentina between 1935 and 1991 Starting on the 1930s a group of professionals scientists and intellectuals who belonged to the Argentine Communist Party introduced Soviet psychology in Argentina as an effort to promote the philosophical and political principles of Marxism Leninism in Argentinean psychological and psychiatric academic circles as well as in mental health institutions This book shows how the efforts of this group contributed to the diffusion of communist scientific ideas and practices in South America as part of a transnational circuit of communist scholars and intellectuals that included France Spain and the USA which fostered scientific exchange and politicized science during the years of antifascist struggle and the Cold War **Communist Psychology in Argentina Transnational Politics Scientific Culture and Psychotherapy 1935 1991** will be of interest to historians of psychology and psychiatry concerned with the study of the relationship between Marxism and psychology in

the 20th century as well as to historians of science in general attentive to the study of the circulation of scientific ideas as the book reconstructs the networks of the international communist movement as an effort to provide a scientific basis for the development of a socialist program in different parts of the world

**MARX Y FREUD EN AMÉRICA LATINA** Bruno Bosteels, 2017-06-06 Este libro analiza la prematura relevancia de Marx y Freud en América latina pensadores ajenos a la zona que se convirtieron en inspiración para los acosados activistas intelectuales escritores y artistas durante los tiempos de la opresión política y cultural Bruno Bosteels presenta diez estudios de casos argumentando que el arte y la literatura la novela la poesía el teatro y el cine más que cualquier folleto o ensayo te rico nos pueden dar una idea del marxismo y del psicoanálisis no tanto como la ciencia de la historia o la del inconsciente respectivamente pero sí como dos modos estrechamente relacionados de la comprensión de la formación de la subjetividad

**Religion and Politics in Europe and Latin America** Andrés Pérez-Baltodano, 2025-09-22 This book presents a comparative interpretation of the socio emotional histories of Europe and Latin America offering a novel perspective on the roles of religion and politics in managing collective fear and insecurity in these two regions Emphasizing the historical fears and insecurities faced by underprivileged sectors of Latin American society the book draws on cognitive and social sciences to compile political socioeconomic and cultural landmarks identifying continuities and ruptures in European and Latin American histories The volume highlights Europe's success and Latin America's relative failure in crafting political visions capable of taming fear and insecurity It shows how this largely correlates with how meticulous providentialism the belief that God governs history has been supplanted by general providentialism the belief that God does not intervene in history in the religious cultures of the two regions This shift corresponds to the degree of control individuals feel they have over their history and destiny which typically aligns with their actual social affordances At the heart of these discussions is the notion that the authenticity of the theoretical foundations of political visions is conditioned by society's view of the divine which ultimately determines the capacity of these visions potential to impact history Religion and Politics in Europe and Latin America is a useful resource for students and academics interested in Latin American and European history politics and culture

*Social Transformation and the Global Economy* Ronaldo Munck, 2024-06-28 The overall context of this book is set by the decline of the globalization paradigm's ability to grasp the complexity and uncertainty of the current era It takes a new approach based on the frame of transformation viewed as a catalyst to understand the complex interconnected nature of the world around us from a concrete grounded perspective Labour or work is still what makes the world go round and Latin America offers a unique laboratory of social transformation since the pink tide of the 2000s The left it refers to is a new non dogmatic version that does not just recycle old debates but rather opens up new perspectives The book is at once global in its ambition while grounded in labour and Latin American realities Theoretically based and empirically robust it will enthuse the reader to pursue their own research on matters covered here Part I deals with several key debates around labour including the emergence of a precariat from a standpoint

that foregrounds labour agency but also the view from the South that is the majority world Part II takes up various debates around contemporary Latin America from a cultural political economy perspective with an emphasis on the dynamics of social transformation Part III explores the contributions from the broadly defined left towards an understanding of the current challenges faced by those seeking an alternative to the status quo in Latin America and beyond Providing a theoretically sophisticated yet readable text on key contemporary issues this fully interdisciplinary book will find a broad audience among researchers scholars and advanced students of labour Latin American and development studies economics sociology and politics    Introducción al pensamiento marxista ,2003    Marx en la Argentina Horacio Tarcus,2007
