Diego, 2011-11-07 The Light and Space movement of great importance to my development as a young artist is far more than a valid art historical reference It translates matters of psychology phenomenology criticality emotional investment and now-ness into an immaterial language that is both subversive and compelling Light and Space is as contemporary as ever Olafur Eliasson **De Kooning** Harry F. Gaugh, Willem De Kooning, 1983 Willem de Kooning had a restless probing creativity pushing on from one style to the next The battle between abstraction and figuration was essential to his art as he moved from

the profound black and white abstractions of the 1940s to the ferocious Women of the 1950s through the later landscapes and the final lyrical abstractions This richly illustrated volume offers a perceptive and sympathetic view of an artist who made some of the greatest art of this century The variety the inventiveness the sheer quality of de Kooning's work demand our attention and reward us with visual riches Book jacket Willem de Kooning Carolyn Lanchner, 2011 Willem de Kooning was a pioneering figure among Abstract Expressionists one of the most influential champions of the dynamic new painting that brought New York to the center of the international scene in the 1950s This book features ten paintings and drawings by de Kooning selected from The Museum of Modern Art's substantial collection of his work Together they trace the artist's career illustrating his much heralded debut exhibition in 1948 his sensational Woman series of the 1950s and 1960s and the serene works he made late in life An essay by Carolyn Lanchner a former curator of painting and sculpture at the Museum accompanies each work illuminating its significance and placing it in its historical moment in the development of modern art

Krauss, 2015 This image rich essay offers a radical rethinking of the abstract painter Willem de Kooning by one of the greatest

American art critics Many have written about de Kooning's startling canvases of monstrous women but none have approached them this way In prose as energetic as her subject Rosalind Krauss demonstrates how de Kooning could never stop reworking the same subject Deploying one telling image after another she shows that from the early days of his career de Kooning nearly always 1 worked with a tripartite vertical structure 2 projected his own figure and point of view as the male artist into the painting and 3 was compelled to produce the female figure legs splayed obscenely or knees projected into the viewer's space in practically everything he made Hidden in plain sight even in paintings of highways boats and landscapes Woman is always there How could we have missed this *Willem de Kooning* Susan Lake, 2010 This in depth study of the paintings of Willem de Kooning 1904-1997 from the 1940s through the 1970s breaks new ground in its analysis of the artist's working methods and yields new information about previously unreported materials De Kooning's idiosyncratic working methods have long engendered intense speculation and debate among conservators and art historians primarily on the basis of visual inspection and anecdotal accounts rather than rigorous technical analysis This is the first systematic study of de Kooning's creative process to use comprehensive scientific examinations of the artist's pigments binders and supports to inform art historical interpretations thereby presenting a key to the complicated evolution of the artist's work Written for conservation scientists conservators specialists in modern art history museum curators and practicing artists this book offers insights into the way an artist can achieve radical changes in style The technical discussions will have practical applications for conservators curators collections managers and collectors who care for twentieth century art Willem de Kooning Willem De Kooning, Dore Ashton, Smith College.
