C. H. Blom, E. Lamberts, 2006-06 The history of the smaller European countries is rather neglected in the teaching of European history at university level We are therefore pleased to announce the publication of the first comprehensive history of the Low Countries in English from Roman Times to the present Remaining politically and culturally fragmented with its inhabitants speaking Dutch French Frisian and German the Low Countries offer a fascinating picture of European history en miniature For historical reasons parts of northern France and western Germany also have to be included in the Low Countries a term that must remain both broad and fluid a convenient label for a region which has seldom if ever composed a unified whole In earlier ages it as even more difficult to the region set parameters again reflecting Europe as a whole when tribes and kingdoms stretched across expanses not limited to the present states of Belgium Luxembourg and the Netherlands Nevertheless its parts did demonstrate many common traits and similar developments that differentiated them from surrounding countries and lent them a distinct character Internationally the region often served both as a mediator for and a buffer to the surrounding great powers France Britain and Germany an important role still played today as Belgium and the Netherlands have increasingly become involved in the broader process of European integration in which they often share the same interest and follow parallel policies This highly illustrated volume serves as an ideal introduction to the rich history of the Low Countries for students and the generally interested reader alike **James Ensor précurseur de l'art moderne** Francine-Claire Legrand, 1999 **Pre-Eyckian Panel Painting in the Low Countries** Dominique Deneffe, Famke Peters, Wim Fremout, 2009 Surviving pre Eyckian panel painting of around 1400 is in short supply but more remains than was thought At present the list of works to be studied includes some thirty objects in collections in Belgium and elsewhere In the first volume ten objects which in fact constitute the majority of pre Eyckian works in Belgian collections are documented as thoroughly as possible Their interpretation is underpinned not only by classic art historical analysis but also by macro photography X radiography infrared photography and reflectography dendrochronological data and in so far as was feasible or justifiable laboratory analysis of pigments and binding media The research has benefited to the full from the expertise of the many specialists of the IRPA KIK In volume two of this publication are a number of individual contributions by guest authors They cover diverse topics ranging from specific technical observations regarding one noteworthy feature or group of works to historical context peripheral iconographic phenomena aspects of restoration and the exploration of Ghent s archives by way of a case study **DE ROGER DE LA PASTURE A PAUL DELVAUX.** Jacques Stiennon, JEAN PATRICK DUCHESNE, Yves Randaxhe, 1988 **Cobra singulier pluriel**, 1998 Cette tude pr sente les oeuvres collectives du mouvement Cobra Copenhague Bruxelles Amsterdam Ce mouvement est issu de la r union durant les premi res ann es de l
