De Gaulle Und Deutschland:

West Germany, Cold War Europe and the Algerian War Mathilde Von Bulow, 2016-08-22 Examining the clandestine and subversive activities of Algerian nationalists in West Germany and Europe Mathilde Von Bulow sheds new light on the extent to which FLN activities and French counter measures impacted the conflict in Algeria and the politics of the global Cold War

De Gaulle, Deutschland und Europa Wilfried Loth, 1991-01-31 **Walter Hallstein: The Forgotten European?**

Wilfried Loth, William Wallace, Wolfgang Wessels, trans Bryan Ruppert, 2016-07-27 Walter Hallstein was among the great European visionaries This is the first book length study of one of the key shapers of the European Community in its early years The range of contributors include those who worked with Hallstein and have personal recollections of him and younger historians drawing upon documents only recently available The book contains sections on his contribution as State Secretary to post war German foreign policy his seminal role as the first President of the Commission of the EEC and the legacy of his work and ideas and later years as President of the European Movement *Staging West German Democracy* Jan

Uelzmann, 2019-03-21 *Staging West German Democracy* examines how political founding discourses of the nascent Federal Republic FRG were reflected reinforced and actively manufactured by the Federal government in conjunction with the West German state controlled newsreel system the Deutsche Wochenschau By looking at the institutional history of the Deutsche Wochenschau and its close relationship to the Federal Press Office Jan Uelzmann traces the Adenauer administration s project of maintaining a government channel in an increasingly diverse de centralized and democratic West German media landscape *Staging West German Democracy* reconstructs the company s integral role in the planning production and dissemination of pro government PR and through detailed analyses reveals the films to celebrate the FRG as an economically successful and internationally connected democracy under Adenauer s leadership Apart from providing election propaganda for Adenauer s CDU party these films provided an important stabilizing factor for the FRG s project of explaining and promoting democracy to its citizens and of defining its public image against the backdrops of the Third Reich past and a competing contemporary incarnation of German nationhood the German Democratic Republic GDR In this regard *Staging West German Democracy* adds in important ways to our understanding of the media s role in the West German nation building process

Grand Designs and Visions of Unity Jeffrey Glen Giauque, 2003-04-03 In the late 1950s against the unfolding backdrop of the Cold War American and European leaders began working to reshape Western Europe They sought to adapt the region to a changing world in which European empires were rapidly disintegrating Soviet influence was spreading and the United States could no longer shoulder the entire political and economic burden of the West yet hesitated to share it with Europe Focusing on the four largest Atlantic powers Britain France Germany and the United States Jeffrey Giauque explores these early stages of European integration Giauque uses evidence from newly opened international archives to show how a mix of cooperation and collaboration shaped efforts to unify postwar Europe He examines the grand

designs each country developed to advance its own interests specific plans for collaboration or accord and the reactions of the other Atlantic powers to these proposals Competing national interests not only derailed many otherwise sound plans for European unity Giauque says but also influenced such nascent European institutions as the Common Market the antecedent of today s European Union Indeed beyond examining the origins of the European community this comparative study provides insight into national attitudes and aspirations that continue to shape European and American policies today
