## **De Rerum Natura Lucrecio:**

**On the Nature of Things** Titus Lucretius Carus,1995 Titus Lucretius Carus was probably born in the early first century B C and he died in the year 55 Writing in the waning days of the Roman Republic as Rome s politics grew individualistic and treacherous its high life wanton its piety introspective and morbid Lucretius sets forth a rational and materialistic view of the world which offers a retreat into a quiet community of wisdom and friendship Even to modern readers the sweep of Lucretius s observations is remarkable A careful observer of nature he writes with an innocent curiosity into how things are put together from the oceans lands and stars to a mound of poppy seeds from the applause of a rooster s wings to the human mind and soul Yet Lucretius is no romantic Nature is what it is fascinating purposeless beautiful deadly Once we understand this we free ourselves of superstitious fears becoming as human and as godlike as we can be The poem then is about the universe and how human beings ought to live in it Epicurean physics and morality converge **De Rerum Natura** Titus

Lucretius Carus,2009 For a work written more than two thousand years ago in a society in many ways quite alien to our own Lucretius De Rerum Natura contains much of striking even startling contemporary relevance This is true above all of the fifth book which begins by putting a strong case against what it has recently become fashionable to call intelligent design and ends with an account of human evolution and the development of society in which the limitations of technological progress form a strong and occasionally explicit subtext Along the way the poet touches on many themes which may strike a chord with the twenty first century reader the fragility of our ecosystem the corruption of political life the futility of consumerism and the desirability of limiting our acquisitive instincts are all highly topical issues for us as for the poem s original audience Book V also offers a fascinating introduction to the world view of the upper class Roman of the first century BC This edition which complements existing Aris and Phillips commentaries on books 3 4 and 6 will help to make Lucretius urgent and impassioned argument and something of his remarkable poetic style accessible to a wider audience including those with little or no knowledge of Latin Both the translation and commentary aim to explain the scientific argument of the book as clearly as possible and to convey at least some impression of the poetic texture of Lucretius Latin **Reading Lucretius in the**

**Renaissance** Ada Palmer,2014-10-13 Ada Palmer explores how Renaissance poets and philologists not scientists rescued Lucretius and his atomism theory This heterodoxy circulated in the premodern world not on the conspicuous stage of heresy trials and public debates but in the classrooms libraries studies and bookshops where quiet scholars met transformative ideas

**Lucretius** Tito Lucrecio Caro,1937 Lucretius: The Way Things Are Titus Lucretius Carus,1968-01-22 Verse translation of Lucretius s epic Latin poem explaining the universe within the framework of Epicurean philosophy *The Nature of Things* Lucretius,2007-07-26 Lucretius poem On the Nature of Things combines a scientific and philosophical treatise with some of the greatest poetry ever written With intense moral fervour he demonstrates to humanity that in death there is nothing to fear since the soul is mortal and the world and everything in it is governed by the mechanical laws of

nature and not by gods and that by believing this men can live in peace of mind and happiness He bases this on the atomic theory expounded by the Greek philosopher Epicurus and continues with an examination of sensation sex cosmology meteorology and geology all of these subjects made more attractive by the poetry with which he illustrates them

**Defining and Perceiving Feelings in the Late Middle Ages**, 2025-04-24 In order to have a constructive discussion about feelings in the late Middle Ages it is beneficial to first evaluate how the feelings of individual men and women were defined As such the purpose of this book is to explore the words used by late medieval men and women to refer to their feelings and to examine their meanings By doing so we can better understand the efforts of late medieval society to express use and transmit certain feelings especially as they related to manoeuvres of power or the articulation of social values Contributors are Mechthild Albert Jacqueline Cerquiglioni Toulet Frank Collard Paola Corti Badia Francesca Espaol Isabel Grifoll Juan Francisco Jimenez Alcázar José Martínez Gázquez Alicia Minguilez Matilde Juan Liza N Pina Rubio Gerardo Rodríguez Flocel Sabat Benedicte Sere and Marta Serrano Por el camino andamos...
